

Air travel

DECISION TREE: EMISSION AVOIDANCE

1. Do I want/need to attend this event in person?

CRITERIA:

- IS MY PRESENCE ESSENTIAL?
- IS THERE A SIGNIFICANT ADDED VALUE FOR PHYSICAL ATTENDANCE?
- HOW IMPORTANT IS IT FOR ME/MY CAREER?
- IS THIS A TEAM-BUILDING EVENT?
- CAN I ACCESS REMOTELY?

Consider not attending

2. Is the destination reachable by land?

CRITERIA:

- REFER TO THE TRAVEL POLICY OF EACH MSF ENTITY.
- GENERAL GUIDANCE WILL BE PROVIDED IN 2024.

Road-trip!
(bus, train, carpool)

! Remember that public transportation is more emission-friendly.

3. Flying is my only option

How should I do it?

Take a direct economy flight: pack as light as possible.

Use low carbon transport in your destination: such as walking, cycling, or public transport.

Take advantage of the trip to accomplish many purposes: visits to other MSF offices or conferences, trainings and or events.

! Remember that according to the Intergovernmental Panel on Climate Change (IPCC) 2023 Report, we need to cut global GHG emissions by nearly half by 2030, to create a safer, more sustainable world.
