ACTIVITIES AND ORGANISATION

For the year ended 31 December 2024

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organisation. We deliver emergency aid to people affected by armed conflict, epidemics, natural disasters and exclusion from healthcare.

This report is presented along with the financial statements of the organisation for the year ended 31 December 2024. These financial statements are a means of transparency and accountability, illustrating the financial situation of the movement as a whole. They have been prepared in accordance with the accounting policies of Swiss GAAP FER/RPC, which are set out in Note 1.1. to the Financial Statements.

OBJECTIVES AND POLICIES

MSF offers humanitarian assistance to people based on need and irrespective of race, religion, gender or political affiliation. We work to save lives, alleviate suffering and restore dignity. Our actions are guided by medical ethics and the principles of neutrality and impartiality.

In order to be able to access and assist people in need, our operational policies must be scrupulously independent of governments, as well as religious and economic powers. We conduct our own assessments, manage our projects directly and monitor the impact of our assistance. We do not accept funds from governments or other parties who are directly involved in the conflicts to which MSF is responding. We rely on the generosity of private individuals for the majority of our funding.

In 2024, 4,028* health professionals, logistics specialists and administrative staff of all nationalities were assigned in medical programmes, to work with 42,861 locally hired staff* in over 75 countries.

MSF is constantly seeking to improve the quality, relevance and extent of its assistance. MSF Access, formerly known as the Access

Campaign, supports our field programmes by pushing for improved access to existing medicines, diagnostics and vaccines, and the development of better, more appropriate medicines. MSF also funds research into the development of drugs for neglected diseases.

ORGANISATIONAL STRUCTURE

MSF is a non-profit, self-governed organisation. Founded in Paris, France in 1971, MSF today is a worldwide movement of associations, with offices all over the world. Specialised organisations – called satellites – are in charge of specific activities such as humanitarian relief supplies, epidemiological and medical research studies, and research on humanitarian and social action.

In 2011, MSF's international governance structure was reformed. MSF International was registered in Switzerland and in December 2011 the first annual MSF International General Assembly (IGA) was held. In subsequent years, the IGA would be held in June. The IGA comprises two representatives of each MSF association, three representatives elected by the individual members of MSF International, and the International President. The IGA is the highest authority of MSF International and is responsible for safeguarding MSF's medical humanitarian mission, and providing strategic orientation to all MSF entities.

The International Board acts on behalf of, and is accountable to, the IGA. It is made up of representatives of MSF's operational directorates as well as a group elected by the IGA, and is chaired by the International President. The International Board prepares and presents the international combined Financial Statements to the IGA for approval.

*full time equivalent

ALL THOSE WORKING WITH MSF AGREE TO ABIDE BY THE PRINCIPLES OF THE CHARTER OF MSF AS FOLLOWS:

THE CHARTER OF MÉDECINS SANS FRONTIÈRES

Médecins Sans Frontières is a private international association. The association is made up mainly of doctors and health sector workers and is also open to all other professions that might help in achieving its aims. All of its members agree to honour the following principles:

Médecins Sans Frontières provides assistance to populations in distress, to victims of natural or man-made disasters and to victims of armed conflict. They do so irrespective of race, religion, creed or political convictions.

Médecins Sans Frontières observes neutrality and impartiality in the name of universal medical ethics and the right to humanitarian assistance and claims full and unhindered freedom in the exercise of its functions.

Members undertake to respect their professional code of ethics and to maintain complete independence from all political, economic or religious powers.

As volunteers, members understand the risks and dangers of the missions they carry out and make no claim for themselves or their assigns for any form of compensation other than that which the association might be able to afford them.

FOREWORD

In each of the over 75 countries where Médecins Sans Frontières (MSF) delivered medical assistance in 2024, we saw people acting in solidarity for the principles of dignity and humanity. An operating theatre in Democratic Republic of Congo, a communal nutrition education session in Nigeria, and a demonstration demanding a pharmaceutical corporation in South Africa lowers its drug prices only work when people come together. We are grateful to the people who came together in 2024 so that we could serve communities around the world.

In July we finished the largest ever consultation process within MSF to understand how we should evolve as a movement. This consultation drew on the expertise of our network of humanitarians to decide key priorities, such as enhancing our patient-centred approach to care and improving our internal collaboration, for the coming years. The work has already begun to turn this meaningful exchange into meaningful action, so we can become the MSF we want, and need, to be for the communities we serve. During 2024 we transitioned from the Access Campaign, which campaigned for access to drugs and diagnostics, to a new organisational model for MSF's work on improving access to products for healthcare. This new entity, MSF Access, will sit closer to our in-country operations, to better enable our increased ambition in improving access to medicines and products for healthcare.

Separated by thousands of kilometres, our teams working amid conflict in Sudan and Palestine saw grave violations of International Humanitarian Law (IHL). In both conflicts, people were confronted with unrelenting onslaught; children were starved through blockades, bombs were dropped on civilian populated areas and bullets were fired into hospitals. Instead of using IHL as a framework to limit their barbarity in war, we saw indifference and apathy from conflict parties and their backers to these treaties in many conflicts around the world.

Our principles call upon us to face extraordinary challenges. One such growing threat is antimicrobial resistance; as microbes adapt to ensure their own survival, we are now faced with a growing rate of drug-resistant infections globally. Taking antimicrobial resistance as the serious risk that it is - one that could make simple cuts and once treatable diseases deadly - we expanded our antimicrobial stewardship

programmes in 2024. In Chad, Eswatini, Iran, and Syria we began training medical staff on the use of antibiotics and infection, prevention and control measures. By the end of the year, we were running antimicrobial resistance stewardship programmes across 42 countries.

MSF works in an ecosystem of humanitarian organisations, all with the common goal of assisting people in need. And we were heartened to see a unified humanitarian response opposing Israel's attempts to dismantle and impede the work of UNRWA, the largest distributor of aid and provider of healthcare in Gaza. As the humanitarian community as a whole is increasingly prevented from delivering aid impartially and in line with fundamental humanitarian principles, we need to continually confront governments with their commitments to International Humanitarian Law, pressuring them to support the humanitarian community to bring a lifeline to Gazans.

The dedication of our staff, the trust of our patients and the support of our private donors mean that MSF provides relief to whomever needs it. We can participate in the polio vaccination campaign in Gaza that made international headlines, as well as vaccinate children against measles more quietly in Somalia and Afghanistan. These concurrent actions are made possible because of the millions of people who donate to MSF. Together, we hold a belief that children deserve to be safe from preventable diseases, and together, we act on this belief.

As we face this critical moment for humanitarianism, when global solidarity is waning, as seen in widespread funding cuts to other organisations, we want to share with you our deep appreciation for remaining committed to humanitarianism with us. Behind every IV placed in a cholera ward, each mosquito net distributed to displaced families, and every pill dispensed to treat tuberculosis, is a movement of people, supported by millions and acting together in solidarity for our shared principles.

Christopher Lockyear
Secretary General, MSF International

Dr Christos Christou
International President, MSF

YEAR IN REVIEW

By Dr Ahmed Abd-elrahman, Akke Boere, Renzo Fricke, William Hennequin, Dr Sal Ha Issoufou, Kenneth Lavelle, Mari Carmen Viñoles Ramon
MSF Directors of Operations

In 2024, millions of people continued to be affected by disease outbreaks, exclusion from healthcare, and crises such as wars, conflicts, and natural hazards in more than 75 countries. Around 69,500 Médecins Sans Frontières (MSF) staff provided assistance where and how they could.

CONFLICTS IN THE MIDDLE EAST

Following the attacks by Hamas on 7 October 2023, the Israeli forces' war on people in Gaza continued to have a devastating impact on the lives of Palestinians. The war stoked tensions and insecurity across large parts of the Middle East, also escalating conflict in Lebanon and Yemen.

Israeli forces unleashed a relentless campaign of airstrikes and ground incursions, starting from the north of the Gaza Strip, and moving down towards the southern border, obliterating entire neighbourhoods. Our teams treated thousands of patients for war wounds, diarrhoea and skin diseases, as well as psychological trauma, in addition to treating pregnant women and children. However, our efforts to scale up activities were hampered by the Israeli forces, who placed the Strip under a siege, and imposed cumbersome administrative and logistics controls on supplies entering Gaza. As a result, trucks carrying essential medical supplies were routinely blocked. Meanwhile, insecurity forced us to stop activities, evacuate, and then restart, having to adapt to the constantly changing situation. At the time of writing, 11 MSF colleagues have been killed since the start of the war; we miss them, and we mourn their loss.

Communities across the West Bank in Palestine also suffered the fallout of the Gaza war. Israeli forces inflicted shocking levels of violence on refugee camps and communities, destroying houses and killing and maiming people during incursions, some of which lasted for days. During these periods, Israeli forces imposed severe restrictions on people's movements, meaning they could not leave their neighbourhood even to seek – or deliver – healthcare. Despite these inhumane measures, our teams made every effort to reach people in need.

The hostilities that had been simmering between Israel and Hezbollah in Lebanon since the October 2023 attacks erupted in late September 2024. Israeli forces invaded Lebanon and launched widespread airstrikes, including on the capital, Beirut. Although the campaign was short, it was extremely distressing for staff and patients, who often had to evacuate to escape incursions or bombs. In response, we expanded our activities in areas where we had access, running mobile clinics and donating supplies.

In early December, the Assad regime in Syria fell, following an offensive by opposition forces. At the end of the year, our teams were exploring ways to increase the provision of healthcare in parts of the country that had been inaccessible to MSF for over a decade.

CIVIL WAR IN SUDAN

The conflict in Sudan entered its second year in 2024, with the Sudanese Armed Forces and Rapid Support Forces continuing to fight across swathes of the country. Bureaucracy and security constraints thrown up by the warring parties complicated our ability to respond. The limitations imposed meant we were not able to respond on the scale the immense needs of people demanded; the absence of other humanitarian organisations and a lack of aid in many areas meant that some situations of mass displacement, famine, and violence went overlooked or were severely underserved.

In Darfur, a siege imposed on Zamzam displacement camp and the nearby city of El Fasher from May, meant that scarcely any medical supplies or therapeutic food could be delivered. Malnutrition in the camp increased to such a level that famine was declared in August,ⁱ yet the lack of supplies forced us to cease our outpatient malnutrition treatment in October. During the year, insecurity, including the shelling of hospitals, forced us to evacuate El Fasher.

Our teams in Sudan, and in neighbouring Chad and South Sudan, where many Sudanese have fled, treated patients for life-changing trauma injuries caused by explosions, as well as horrific sexual violence and diseases that spread rapidly in conflict and displacement settings, such as cholera, malaria, and hepatitis E.

FORGOTTEN CRISES

Violence between armed groups and the police further intensified in Haiti's capital, Port-au-Prince, making it one of the most dangerous places anywhere for our teams to operate. The healthcare system has collapsed, and many people are forced to live in informal displacement sites, with little access to clean water and sanitation services. In mid-November, following an attack on an MSF ambulance by police and self-defence groups, in which two patients were executed and accompanying staff members tear-gassed and threatened, we temporarily suspended all activities in Port-au-Prince. By the end of the year, we had started to resume some of these activities.

In Myanmar, the ongoing conflict in Rakhine state continued to cause widespread displacement and suffering, yet drew almost no international attention. Lives and property were deliberately destroyed, and many people forcibly recruited into military service. Despite severe restrictions on our operations and repeated attacks on our facilities, we worked to deliver care, adopting alternative strategies, such as teleconsultations, wherever possible.

From January, there was a surge in fighting between the Congolese army and M23 and other armed groups in North Kivu and South Kivu in the Democratic Republic of Congo (DRC), with people and medical facilities repeatedly caught in the crossfire. MSF offered medical and humanitarian assistance in several locations, including sites around Goma, North Kivu's capital, where up to one million displaced people were estimated to have sought refuge by May.

Across the countries of the Sahel – such as Mali, Burkina Faso and Niger – our teams continued to respond to the needs of communities enduring ongoing violence and recurrent malnutrition where possible. But we were faced with increasing restrictions on activities and access, and insecurity from both states and armed groups.

ATTACKS ON HEALTHCARE

In 2024, we recorded a significant rise in the number of security incidents affecting MSF staff, facilities and infrastructure compared to recent years. This was indicative of MSF operations in closer proximity to frontlines in armed conflicts, and of the volatile security situation

in many of the places where we work, such as Palestine, Haiti, Sudan, and DRC. Some of these events – shootings, explosions, raids on our facilities by armed groups, attacks on our ambulances – led us to suspend some medical activities during the year. The decision to halt our services, even temporarily, is never taken lightly. Ultimately, it is the local communities who lose access to desperately needed healthcare.

However, these events are not limited to MSF alone; it reflects what the people we assist and the whole humanitarian community are experiencing. Today, state and non-state armed groups increasingly and flagrantly violate International Humanitarian Law, which is supposed to protect medical workers and infrastructure, and reduce the space in which humanitarians can safely work.

SEXUAL VIOLENCE

Sexual violence is prevalent in many of the places where we work, especially in conflict settings, such as Sudan, where it is used as a weapon of war. In DRC, numbers are particularly high. In 2023, our teams treated two victims or survivors of sexual violence every hour – a total of over 25,000 people across five provinces during the year. Alarming, this trend increased in 2024; in just displacement sites around Goma, North Kivu province, over the first five months, we treated almost 17,500 patients.

Our teams working in the Darién Gap, between Colombia and Panama, and in other locations along the Central American migration route, such as Mexico and Guatemala, treated many women and girls who had been raped or sexually assaulted by criminal gangs in 2024.

PEOPLE ON THE MOVE

In December, we were forced to end our Central Mediterranean search and rescue activities with our ship, the *Geo Barents*, due to a hostile political climate and new migration laws in Italy, which made our operational model untenable. This decision came after the *Geo Barents* was subjected to multiple 60-day detention orders. Along with the European Union, Italy's laws and policies reflect a genuine neglect for the lives of people seeking refuge and safety.

Most of the people crossing the Mediterranean embark from Libya, where they have been subjected to extreme violence and abuse. In Libya, MSF treated people for the mental and physical trauma of abduction, trafficking, assault and sexual abuse, as well as illnesses exacerbated by dire living conditions and a lack of healthcare. In this context, we successfully negotiated to evacuate people in Libya we identified as needing urgent treatment to Italy, where they are cared for.

People on the migration route from southern to northern America continue to face physical and mental abuse. In response we worked in Panama, Costa Rica, Honduras, Guatemala, Mexico, and the United States during the year, where we provided medical and mental health treatment.

In addition to addressing the needs of people displaced by violence across large-scale activities in DRC, South Sudan, or Sudan, we also responded to people in areas such as Mali and Mozambique. In Niafounké, we provided healthcare to people fleeing conflict between non-state armed groups and the Malian army. In Mozambique, ongoing violence in Cabo Delgado province continues to force people to leave their homes.

RESPONDING TO MEDICAL CRISES

Since 2022, our teams have responded to a continuous cycle of large cholera outbreaks, including in Yemen, Sudan, South Sudan, and DRC, countries marked by conflict and displacement, which are key drivers of this highly contagious and potentially deadly disease. In 2024 we

© MSF

also launched activities in other places, such as Comoros, where we had never worked before; Zambia, where we returned for the first time since 2018; and Tanzania. Our response to these large and prolonged outbreaks was hindered by the lack of oral cholera vaccines, due in part to the high demand, and to the fact that one of the two principal oral vaccine manufacturers ceased production.

Throughout the year, MSF teams treated high numbers of malnourished people, mostly children, but increasingly women, especially in Afghanistan and Yemen. Our teams saw disastrous levels of malnutrition in parts of Darfur, Sudan, as well as in Zamfara state, northwest Nigeria, where a mass screening conducted in June revealed that, in two areas, one in four children under the age of five was malnourished. This crisis is aggravated by a global decrease in funding for malnutrition, which has reduced the availability of ready-to-use therapeutic foods, for both preventive and treatment purposes.

In 2024, an outbreak of mpox, a contagious, viral illness that can be fatal if left untreated, began to spread in DRC and subsequently to other countries in Africa, before the World Health Organization declared it a public health emergency of international concern in August. Our teams responded to mpox in DRC, Central African Republic, and Burundi.

SHRINKING SPACE FOR HUMANITARIAN AID

After 32 years, we were forced to end our medical activities in Russia in August, when the Russian Ministry of Justice decided to withdraw the registration of the MSF section that ran our activities. This was a blow to the people we were serving in the country, including tuberculosis patients in Arkhangelsk region; people living with HIV in Moscow and St Petersburg; and refugees and internally displaced people affected by the war in Ukraine. We would like to return to Russia, if and when the authorities permit us to.

In recent years, funding for humanitarian aid has been diminishing, as is evident from the increasing gaps in healthcare and the growing needs in the countries where we operate. Sadly, this trend continued in 2024 and into 2025, with many countries cutting or redirecting funds for aid. While we are not directly financially affected by these funding cuts, we are deeply concerned. It is clear no single organisation can fill the enormous hole in the international aid system. Nevertheless, we remain committed to providing independent and impartial medical humanitarian aid to people who need it.

¹ Integrated Food Security Phase Classification Famine Review Committee

TREASURER'S REPORT

COMBINED ACCOUNTS 2024

It is again my pleasure to present the audited combined financial statements of the MSF Movement, this time for 2024. The combined accounts are prepared on the basis of the audited financial statements of the 49 entities listed in Note 1.2, including sections, branch offices, satellite organisations and MSF International. The combined financial statements present a picture of MSF globally. They are publicly shared to uphold the principles of accountability and transparency MSF is committed to.

INCOME

The 2024 income reached 2,362M EUR, essentially the same as for 2023 (2,365M EUR). More than 7.1 million individual supporters, together with private institutions, donated 2,313M EUR, or 97.9% of MSF's income (98.1% in 2023). Gifts from individuals totalled 2,015M EUR, or 85.3% of overall income (85.1% in 2023). Nine of the 10 countries where the highest amounts of income are generated remained the same, demonstrating the stability of our fundraising base, with 77.3% of our private income originating from these countries (76.4% in 2023). Income from government agencies, as well as from public and multilateral organisations, sales of relief goods to other humanitarian organisations, and interest on financial investments, accounted for the remaining 49M or 2.1% of total income (1.9% in 2023).

EXPENSES

Total operating expenses grew by 3.2% in 2024, reaching 2,384M EUR (2,309M EUR in 2023). Social mission expenses totaled 1,882M EUR (1,851M EUR in 2023). They represented 78.9% of total operating expenses (80.2% in 2023). Additional breakdowns for the social mission expenses are provided in the table below:

	In millions of EUR	
	2024	2023
Programmes expenses	1,510	1,488
Programme support	294	287
Awareness-raising	56	55
Other humanitarian activities	22	21
Social mission expenses	1,882	1,851

Fundraising expenses increased to 373M EUR, or 15.6% of total operating expenses (14.8% in 2023). General management and administration expenses amounted to 129M EUR, or 5.4% of total operating expenses (5% in 2023).

Although MSF's brand remains tremendously strong, we are not immune to fundraising challenges, and the need to invest and modernize our processes, tools, and techniques. Competition for donations is fierce; we must continuously adapt to generate the income needed to support our social mission. As for the general management and administration expenses, multiple factors contributed to the increase, including recruitment and compensation adjustments in key areas and geographies. MSF remains absolutely focused on directing most of the funds generated to our programmes. We believe that, over the medium term, investments in fundraising, as well as in staff and support, will translate into more funds being generated, and a more effective use of our resources, leading to our social mission ratio reverting back to historical levels.

PROGRAMME EXPENDITURE

Programme expenses reached an all-time-high of 1,510M EUR in 2024, a 1.5% increase from 2023 (1,488M EUR). Detailed financial and human resource information for all countries where MSF operates is provided in the appendix of the financial statements.

The 10 countries where MSF spent the most in 2024 represented 58% of total programme expenses (53% in 2023), while the top 20 countries encompassed 79% (75% in 2023). As for recent years, but perhaps even more evidently in 2024, this indicated a persistence of humanitarian needs in the subset of countries where MSF is most active, as well as an increasing concentration of interventions in those same areas. Details are provided in the table below for the 10 countries where MSF spent the most in 2024. Although eight of these countries are the same as for 2023, it is worth noting that there were significant variations at the country level.

	In millions of EUR
	2024
Democratic Republic of Congo	130
South Sudan	119
Yemen	116
Sudan	106
Palestine	85
Chad	80
Central African Republic	68
Nigeria	67
Afghanistan	56
Niger	52
Top 10 countries	880
Next 10 countries	316
Largest 20 country programmes	1,196

RESULTS FOR THE YEAR AND RESERVES

The resulting operating deficit was 21.5M EUR in 2024 (56M surplus in 2023). After adjusting for non-operating gains of 35M EUR, and recognising the impact of updating exchange rates (+20M EUR), the 2024 result increased to a surplus of 34M EUR (69M EUR in 2023). This surplus contributed to an increase in the level of equity reserves (funds and capital) as of 31 December 2024 of 47M EUR to 1,547M EUR, the equivalent of 7.8 months of the year's expenses (same as for 2023). Even though a surplus was generated in 2024, adding to the reserves, the fact that expenses grew while income stayed flat puts more pressure on the reserve expressed in terms of number of months of expense.

The level of liquid (cash, cash equivalents and short-term deposits) reserves was 1,204M EUR (1,096M EUR in 2023). As of year-end 2024, liquid reserves represent the equivalent of 6.1 months of the year's expenses (5.7 months for 2023). While the overall level of reserves MSF enjoys continue to be an indicator of MSF's financial health, the growth in expenses relative to income, combined with the ever-increasing demand for humanitarian services, in particular in this period of changes and uncertainties, are factors that MSF needs to keep at the forefront of every decision made. MSF must exercise prudence in setting priorities and launching new initiatives and programmes, and continuing to use funds judiciously. This will ensure that MSF continues to provide Operational Directorates with the flexibility needed to deliver on the Movement's objectives and commitments.

Yves McGale, International Treasurer

AUDITOR'S REPORT

Ernst & Young Ltd
Place de Pont-Rouge 1
P.O. Box 1575
CH-1211 Geneva 26

Phone: +41 58 286 56 56
www.ey.com/

To the Members of International General Assembly of
Médecins Sans Frontières International, Geneva

Geneva, 26th May 2025

Independent auditor's report of the combined financial statements

Opinion

We have audited the combined financial statements of Médecins Sans Frontières International (the reporting entity, consisting of the entities set out in note 1.2 to the combined financial statements), which comprise the combined statement of financial position as of 31 December 2024, the combined statement of financial activities, the combined statement of changes in funds and the combined statement of cash flows for the year then ended, and notes to the combined financial statements, including a summary of significant accounting policies.

In our opinion, the combined financial statements (pages 13 to 40) give a true and fair view of the combined financial position of Médecins Sans Frontières International as of 31 December 2024 and of its combined financial performance, and its combined cash flows for the year then ended in accordance with Swiss GAAP FER.

Basis for opinion

We conducted our audit in accordance with Swiss Standards on Auditing (SA-CH). Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the combined financial statements" section of our report. We are independent of Médecins Sans Frontières International in accordance with the requirements of the Swiss audit profession and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The International Board is responsible for the other information. The other information comprises the information included in the annual report but does not include the combined financial statements and our auditor's reports thereon.

Our opinion on the combined financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the combined financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the combined financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

International Board's responsibilities for the combined financial statements

The International Board is responsible for the preparation of the combined financial statements, which give a true and fair view in accordance with Swiss GAAP FER and for such internal control as the International Board determines is necessary to enable the preparation of combined financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the combined financial statements, the International Board is responsible for assessing the ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis. The International Board is further responsible for selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibilities for the audit of the combined financial statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these combined financial statements.

A further description of our responsibilities for the audit of the combined financial statements is located on EXPERTSuisse's website at: <https://www.expertsuisse.ch/en/audit-report>. This description forms an integral part of our report.

Emphasis of matters

We draw attention to Note 1 of the combined financial statements, which describes the basis of preparation. Our opinion is not modified in respect of this matter.

NOTES TO THE COMBINED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2024

1 BASIS OF REPORTING

1.1 BASIS OF PREPARATION AND PRESENTATION

A combination aggregates the Financial Statements of several separate entities which are not inter-related by investments into a single group, whereas a consolidation presents the Financial Statements of a group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiaries are presented as those of a single economic entity. These Financial Statements combine the financial position and results of the MSF entities in full. All transactions between MSF entities and inter-entity balances are eliminated. They were reviewed by the International Board on 26 May 2025 and are expected to be approved by the International General Assembly on 26 June 2025.

The combined Financial Statements comply with the articles of the association of MSF International, and with Swiss Generally Accepted Accounting Principles (Swiss GAAP FER/RPC including Swiss GAAP FER/RPC 21). The Combined Financial Statements are presented in thousands of EUR. They are prepared in accordance with the historical cost convention. Figures are rounded to the nearest thousand. Rounding differences may exist within summations.

The Combined Financial Statements include the Combined Statement of Financial Activities, the Combined Statement of Financial Position, the Combined Statement of Changes in Funds, the Combined Statement of Cash Flows, and Notes to the Combined Financial Statements.

1.2 BASIS AND SCOPE OF COMBINATION

The international MSF movement is composed of 27 associations, which are all part of MSF International, the association that safeguards the identity of the MSF movement. Internally, 24 of these associations have offices known as Sections. Sections are the foundational structures of MSF. They are offices that enable, implement, support and govern the delivery of our social mission. They recruit staff, organise fundraising, and raise awareness on the humanitarian crises MSF teams are witnessing and are responding to.

The MSF associations are linked to six Operational Directorates who directly manage our humanitarian action.

A number of MSF sections have opened branch offices in different countries to extend their support work further. There were 18 branch offices around the world as of December 2024.

Additional satellite offices have been established to support our programmes, mainly in the areas of logistics, supply and epidemiology. A number of those satellite offices are also independent legal entities.

The Combined Financial Statements present the overall financial situation and results of all legally independent MSF entities.

Combined organisational capital

Since the first combination of an entity does not result from the purchase of shares, combined organisational capital represents the aggregation of combined entities' capital. Investments between combined entities are eliminated against capital.

Initial measurement of the combined entities' assets and liabilities

Since the first combination of an entity does not result from the purchase of shares but from a pooling of economic interests, neither goodwill nor fair value adjustments exist. The assets and liabilities of each combined entity are initially measured at net book value, based on the Swiss Generally Accepted Accounting Principles and all transactions between entities have been eliminated.

The 2024 and 2023 audited financial statements of the following entities are included in the combined Financial Statements:

MSF Argentina	Avenida Santa Fe 4559 C1425BHH, Ciudad de Buenos Aires, Argentina	
MSF Australia	Level 8, 700 Harris Street, Ultimo, NSW 2007, Australia	
MSF Austria	Taborstraße 10 A-1020, Vienna, Austria	
MSF Belgium	Rue de l'Arbre Bénit 46, 1050 Brussels, Belgium	
MSF Brazil	Avenida Rio Branco, 135 - 11 Andar Centro CEP 20040-912 Rio de Janeiro, Brazil	
MSF Canada	551 Adelaide Street West, Toronto, Ontario M5V 0N8, Canada	
MSF Colombia	Transversal 17 N° 45D-31, Bogotá, Colombia	
MSF Czech Republic	Lékaři bez hranic, o.p.s, Zenklova 2245/29, 180 00 Praha 8, Czech Republic

Fondation MSF Belgique	Rue de l'Arbre Bénit 46, 1050 Brussels, Belgium	
MMP ACCESS DMCC	Jewellery & Gemplex 3 ; Plot No: DMCC-PH2-J&GPlexS, Dubai, United Arab Emirates	Included from 2024
SCI MSF	14-34 avenue Jean Jaures, 75019 Paris, France	
Shared IT Services	Zenklova 2245/29, 180 00 Praha 8, Czech Republic	

1.3 RELATED PARTIES

All entities listed in Note 1.2 are related parties, as are the International Board members discussed under Note 5.4.3.2 – Remuneration of International Directors and Managers.

1.4 CURRENCY TRANSLATION

The individual Statements of Financial Position of the combined entities are translated into EUR at the year-end rate. The individual Statements of Financial Activities of the combined entities are translated at the average rate for the current year (Note 2.2.9). The translation reserve is recognised in the Statement of Financial Position and cumulates the historical gains/losses resulting from applying different rates to the Statement of Financial Position and to the Statement of Financial Activities.

The main currency exchange rates compared to the EUR are as follows:

	Closing rate 2024	2023	Average rate 2024	2023

ZAR	19.619	20.348	19.830	19.983

1.5 CHANGE IN ACCOUNTING POLICIES AND DISCLOSURES

There have been no changes in accounting policies in 2024 or 2023. In 2023, the presentation of the combined statement of cash flows and of Note 3.9 on property, plant and equipment and intangible assets was changed to enhance compliance with Swiss Generally Accepted Accounting Principles (FER/RPC). A few minor presentation reclassifications have been made in 2024 comparatives figures and are detailed in the relevant notes.

1.6 FINANCIAL RISK MANAGEMENT

Due to the nature of its activities, MSF might be exposed to financial market risk - including foreign currency risk, interest rate risk, credit risk and liquidity risk.

Risk management is conducted by the Board of Directors of each MSF entity. Risks are assessed in collaboration with the operating units and any mitigation measure is decided and implemented under the supervision of the Board of Directors of each entity.

Foreign currency risk

MSF receives and spends funds in a variety of currencies. Foreign exchange fluctuations affect budgets, the cost of transactions and the value of balances. MSF uses forward contracts to hedge the currency risks linked to net income flows in a number of currencies.

Interest rate risk

MSF entities may invest cash held in excess of immediate needs. They may also have borrowed funds to fund major investments such as buildings. MSF entities are therefore subject to interest rate risk directly. The risk is however limited, in particular because loan agreements are made at fixed rates.

Credit risk

Management of counter-party risk is essential to ensure that cash and cash equivalents are secure and that receivables are collectible. MSF entities use reputable banks. Their investments of cash balances that exceed immediate needs are guided by entity-specific policies in line with the MSF financial investment policy framework. MSF entities monitor their receivables to ensure that they are fully collectible. These receivables are from reliable third parties.

Liquidity risk

Cash flows can be difficult to project because the timing of certain fund raising streams can be more challenging to predict, in particular during periods of economic uncertainty. In addition, cash outflow projections are affected by unplanned emergency responses. The MSF Reserves Policy seeks to ensure that sufficient levels of reserves exist to meet working capital needs at all times and to provide a buffer for emergencies.

2 NOTES TO THE COMBINED STATEMENT OF FINANCIAL ACTIVITIES

2.1 OPERATING INCOME

MSF's income comprises contributions from private donors and public institutions, as well as revenues from other activities. Private income is donated by individuals and private organisations (companies, trusts and foundations, and other non-profit organisations). Public institutional income represents grants (i.e. contributions based on contracts for specific projects), subsidies and donations from public institutional bodies, such as governments or decentralised institutional bodies. Other income is mainly derived from merchandising, equipment and services provided to others.

Donations

Donations are based on non-reciprocal transfers of cash or other assets, or cancellation of liabilities. They are recognised as income upon receipt.

Grants

Income from grants, whether individuals, private organisations or public institutions, equals the value of the allowable expenses under the grant conditions incurred in the current year. At year-end, the difference between the cash received and the cumulative expenses incurred is accounted for as grants receivable or deferred income.

Restrictions

Income is considered as restricted when it is subject to a donor-imposed restriction. A donor-imposed restriction is a stipulation and limitation on the use of contributed assets or monetary donations. The restriction can relate to purpose (country, programme or activity), time to implement activities or other specific conditions imposed by donors. Funds received for emergencies are treated as restricted if the emergency is explicitly specified by the donor or can be inferred from circumstances. They are otherwise regarded as unrestricted, and are available for MSF operations.

Restricted funds are mostly spent in the year they are received.

Restricted funds can be permanently or temporarily restricted. Permanent restrictions relate to funds the donor has required MSF to hold for long term use. Temporary restrictions refer to funding that can be used once the conditions set by the donor have been fulfilled.

Changes in temporarily restricted funds by country are presented in the table "Changes in temporarily restricted funds by countries/projects". Only countries where movements exceeded 500,000 EUR are shown individually. A zero balance at the end of the year for a specific country indicates that funds that were restricted to activities in that country have been fully used. It does not imply that MSF has ceased activities in that country. MSF's decision to operate in a given context is primarily driven by medical and humanitarian needs, and not the allocation of grants or donations.

Other movements in the table "Changes in temporarily restricted funds by countries/projects" mostly relate to reclassification or changes in the nature of the restriction of the funds, for instance when time-restricted funds are released from their restriction.

In-kind donations and services

MSF occasionally receives donations in kind, primarily in the form of the free use of goods or services (drugs and medical equipment in projects, consultancies and travel miles in headquarters). These contributions to MSF's humanitarian projects are not recorded in the combined accounts. They are estimated at fair market value based on the donation certificate or on the contract entered into with the donors in the accounts of MSF entities that receive them.

	<i>In thousands of EUR</i>	
	2024	2023
Headquarters	5,564	4,066
Programme expenses	2,859	2,110

TOTAL AFTER OVERHEADS ALLOCATION	373,044	128,757	501,801	-	2,383,793	2,308,816

Expenses are allocated according to the full cost method. Expenses under each expense category include direct costs and an apportionment of indirect costs (overheads). Therefore, all expenditure categories include direct costs and allocated overheads (e.g. building costs and depreciation).

Overheads correspond to expenses which are required to operate general organisational functions, and which cannot be directly attributed to any other cost category. They generally relate to facility management.

*APH Access to Products for Healthcare, now MSF Access.

2.2.2 PERSONNEL EXPENSES

Programme expenses represent expenses incurred in our programmes of operations or by the headquarters on behalf of our programmes, as well as grants/donations awarded/given to other organisations.

Transversal expenses are composed of activities covering more than one country, such as search and rescue operations, which represent 9.2M EUR in 2024 (9.6M EUR in 2023), and other transversal and unallocated activities.

2.2.4 PROGRAMME SUPPORT

Programme support relates to expenses incurred in headquarters and regional offices in order to carry out MSF humanitarian operations (e.g. project design, monitoring and evaluation, recruitment of international staff, activities designed to improve the quality and the effectiveness of MSF operations).

2.2.5 AWARENESS-RAISING, ACCESS CAMPAIGN/APH*

Awareness-raising expenses are costs incurred by MSF public communications activities in furtherance of its social mission. They are related to situations where MSF acts as a witness and speaks out about the plight of the people it serves to alert, mobilise or denounce, and put pressure on responsible parties in order to stimulate action. Such costs are also incurred when MSF provides public information to render account of its actions and the operational reality MSF teams see.

MSF Access to Products for Healthcare (MSF Access) succeeded the MSF Access Campaign at the end of 2024. MSF Access is made up of a team of regional, advocacy, analysis and other colleagues working on access issues. It works to guarantee equitable access to affordable, innovative, and quality healthcare products for MSF patients and, consequently, for patients and communities worldwide.

	In thousands of EUR	
	2024	2023
Awareness-raising	49,828	48,933
Awareness-raising, Access Campaign/APH*	6,108	5,571
Total	55,936	54,504

*APH Access to Products for Healthcare, now MSF Access.

2.2.6 OTHER HUMANITARIAN ACTIVITIES

Expenses classified under other humanitarian activities consist primarily of the cost of the goods sold and services provided to other organisations, as well as MSF's contribution to the Drugs for Neglected Disease initiative (DNDi, see Note 5.1).

2.2.7 FUNDRAISING

Fundraising expenses represent costs incurred for raising funds from all possible sources of income from private donors and public institutions.

2.2.8 MANAGEMENT AND GENERAL ADMINISTRATION

Management and general administration expenses consist primarily of expenses associated with executive management, headquarters finance and human resources management, internal communication and the associative life of the organisation.

2.2.9 NET EXCHANGE GAIN / LOSS UNREALISED AND REALISED

Net realised exchange gains/losses represent gains/losses generated from foreign currency transactions entered into during the year by the various offices. Net unrealised gains/losses represent gains/losses resulting from the revaluation of items in the Statement of Financial Position of reporting entities.

2.3 FINANCIAL ACTIVITIES

Financial activities represent income and expenses resulting from financial and investment activities.

	In thousands of EUR	
	2024	2023
Financial income	25,934	30,415
Financial expenses	(1,082)	(482)
Financial surplus	24,852	29,933

Financial income in 2023 and 2024 is linked to gains on endowment funds, other investments and on interest income on short term deposits. 10.21M EUR in 2023 corresponds to unrealised gains. In 2024 the financial surplus includes 1.93M EUR unrealised loss.

2.4 EXTRAORDINARY ACTIVITIES

Extraordinary activities arise extremely rarely in the context of ordinary operations and are not predictable.

	In thousands of EUR	
	2024	2023
Extraordinary income	4,285	44
Extraordinary expenses	5,652	5,966
Extraordinary surplus	9,937	6,010

In 2023 and 2024, the extraordinary expense is linked to the partial reversal of a provision for a specific tax risk that was originally recorded as an extraordinary expense. In 2024, a section received an exceptional reimbursement from a government fund (4.2M EUR).

3 NOTES TO THE COMBINED STATEMENT OF FINANCIAL POSITION

3.1 CASH AND CASH EQUIVALENTS

In thousands of EUR

	2024	2023
Cash at headquarters	591,181	618,738
Cash in countries of operations	104,311	103,050
Short-term deposits	375,163	214,925
Cash and cash equivalents	1,070,656	936,713

This includes cash at headquarters, cash in countries of operations and deposits with a maturity date of less than 90 days as of 31 December. Amounts are valued at fair value with any resulting gains or losses recognised in the Statement of Financial Activities.

3.2 INVENTORIES

In thousands of EUR

	Gross value	Provision	2024	2023
Medical and non-medical relief goods	74,245	2,888	71,357	70,058
Other inventories	683	-	682	929
Inventories	74,928	2,888	72,040	70,987

Inventories held at headquarters, in operational sections and satellites are recorded at the weighted average of the purchase price. Discounts are deducted from purchase value. All goods and materials present in projects are recognised as expenses when transferred from headquarters and satellites to projects, or when purchased locally, because of the fast turnover and their non-commercial destination. Appropriate inventory provisions are recorded based on stock usage, expiry date and any damage.

3.3 GRANTS RECEIVABLE

In thousands of EUR

	Current		Non-current		Total	
	2024	2023	2024	2023	2024	2023
Grants receivable from private donors	31,603	24,502	9,253	6,479	40,856	30,981
Grants receivable from public institutions	2,217	9,462	2,550	-	4,767	9,462
Grants receivable	33,820	33,964	11,803	6,479	45,623	40,443

Grants receivable correspond to funds owed to MSF by third parties according to a formal agreement. They result from the difference between cash received and expenses incurred against those grants. There is no provision for grants receivables stated at 31 December 2024 or 2023.

3.4 CONTRIBUTIONS AND LEGACIES RECEIVABLE

At 31 December 2024, the outstanding amount represents 78,391 thousand EUR, net of a provision in an amount of 232 thousand EUR (2023: 89,974 thousand EUR) of contributions to be received in the following year.

Contributions receivable include donations sent by donors before year-end for which the corresponding cash has been collected by MSF in the month following year-end. They are accounted for at their nominal value net of provision.

At 31 December 2024 Legacies receivable amount to 114,183 thousand EUR (2023: 132,696 thousand EUR). They are accounted for at nominal value net of provision.

Legacies receivable were shown under Other receivables in 2023. An amount of 132,696 thousand EUR has been reclassified under Contributions and Legacies Receivable for 2023.

3.5 OTHER RECEIVABLES

In thousands of EUR

	Gross value		Provision		Total	
	2024	2023	2024	2023	2024	2023
Services provided to other organisations	10,433	9,670	(25)	(25)	10,408	9,645
Assets held for sale	29,838	28,768	-	-	29,838	28,768
Deposits and guarantees	2,759	1,858	-	-	2,759	1,858
Other miscellaneous receivables	21,965	21,983	-	-	21,965	21,983
Other receivables current	64,994	62,279	(25)	(25)	64,969	62,255
Deposits and guarantees	4,070	1,486	-	-	4,070	1,486
Other miscellaneous receivables	19	31	-	-	19	31
Other receivables non-current	4,090	1,517	-	-	4,090	1,517
Total - Other receivables current + non-current	69,084	63,796	(25)	(25)	69,059	63,771

Other receivables mainly relate to assets held for sale, services provided and goods sold to other organisations. Assets held to be sold are reported at their best estimate amount when legally transferred to MSF. Most of these assets are buildings. Other miscellaneous receivables include amounts to be refunded from tax authorities such as VAT refunds and advances to suppliers.

3.6 FINANCIAL ASSETS

In thousands of EUR

	Gross value	Provision	2024	2023
Short-term investments	133,671	-	133,671	159,455
Financial assets current	133,671	-	133,671	159,455
Long-term investments	71,727	-	71,727	55,395
Long-term loans	2,371	-	2,371	-
Other financial assets	144	-	144	7,811
Financial assets non-current	74,242	-	74,242	63,206
Total - Financial assets	207,913		207,913	222,661

Financial assets are valued at fair value. Long-term investments are endowment funds and other donor-directed investments. The forward contracts MSF uses to hedge the current risks linked to net income flows are not recognised in the statement of financial position until the future cash flow is realised. Upon the occurrence of the future transaction or the disposal of the derivative instrument, the current value of the derivative financial instrument is recognised in the statement of financial position and recorded in the statement of financial activities at the same time as the cash flow hedged. Derivative financial instruments that are open as at the statement of financial position date are disclosed in Note 5.1.

3.7 PREPAID EXPENSES AND ACCRUED INCOME

Prepaid expenses include payments made towards insurance premiums, rentals, postage and software licences for 2024 and beyond. Prepaid expenses are valued at nominal value.

3.8 OTHER ASSETS

Other assets mostly represent advances to vendors and other operating advances. Other assets are valued at nominal value, net of any potential impairment.

3.9 PROPERTY, PLANT AND EQUIPMENT, AND INTANGIBLE ASSETS

Property, plant and equipment (PPE) are mainly located at the headquarter offices of MSF entities. Intangible assets are mainly composed of software and licences. Property, plant and equipment, and intangible assets held by MSF, are capitalised when they are held to be used for the activity, or for administrative purposes, and expected to be used over more than one year. Property, plant and equipment is recorded at their acquisition cost, including incidental expenses. They are depreciated using the straight-line method over their estimated useful lives, using the component approach. Land is not depreciated. Intangible assets, such as software, are recorded at cost, net of accumulated amortisation and impairment losses. They are amortised on a straight-line basis over their estimated useful lives. The depreciation period is based on the type of asset and the policy of each entity:

Buildings	10 to 50 years
Furniture & fixtures	
Furniture	3 to 10 years
Fixtures	3 to 10 years
IT and other equipment	
Computer equipment	3 to 10 years
Software	3 to 15 years
Other tangible assets	3 to 10 years
Intangible assets	2 to 10 years

The depreciation periods above have been updated to reflect the latest policies in effect across MSF entities.

The acquisition cost of equipment used in the field for programme purposes, such as vehicles and medical and communication equipment, is expensed upon shipment to projects, or upon purchase if purchased locally, due to the instability of the contexts in which MSF operates and the difficulty in determining, in a reliable way, their useful life and residual value. When an MSF operational directorate leaves a country, the remaining equipment is generally donated to the Ministry of Health of the country or another non-governmental organisation still present in the country, and thus does not generate any future economic benefit for MSF.

Buildings (including those under construction) and land owned by MSF at 31 December 2024 are valued at 218 million EUR (221 million EUR in 2023). Such assets aim to optimize the running costs of the organisation by lowering rental costs and diversify the reserves.

Assets acquired under long-term finance leases are capitalised and recorded in the Statement of Financial Position. They are depreciated over the estimated useful lives of the assets. The associated obligations are included in financial debts (Note 3.12).

Among the tangible assets at 31 December 2024, the gross value of capitalised leased assets is at 85 thousand EUR (82 thousand EUR in 2023), and capitalised obligations 55 thousand EUR (74 thousand EUR in 2023). The total reimbursements for the current year amount to 19 thousand EUR (15 thousand EUR in 2023).

Review of the assets reported under land and buildings has resulted in the reclassification of assets with the net value of 2.15 million EUR.

3.10 ACCOUNTS PAYABLE AND ACCRUED EXPENSES

In thousands of EUR

	Current		Non-current		Total	
	2024	2023	2024	2023	2024	2023
Accounts payable	76,975	71,762	-	26	76,975	71,788
Accrued expenses	40,646	33,888	-	-	40,646	33,888
Accrued personnel expenses	101,853	95,553	140	127	101,993	95,680
Accrued taxes	7,611	5,001	-	-	7,611	5,002
Public institutional grants payable	11	23	-	-	11	23
Private grants payable	2,534	1,925	-	-	2,534	1,925
Other payables	34,300	25,663	418	816	34,718	26,479
Accounts payable and accrued expenses	263,931	233,816	558	969	264,488	234,785

Accounts payable to suppliers are recorded on an invoice basis when invoices are received by the time of preparation of the financial statements. Accrued expenses are valued at the best estimate if no invoice has been received. Other payables include amounts owed to donors of the charitable gift annuity programmes. Accounts payable and Accrued expenses were shown together until the 2023 International Combined Accounts. Similarly, accrued social taxes were previously reported under accrued taxes and are now shown under accrued personnel expenses.

3.11 DEFERRED INCOME

In thousands of EUR

	Current		Non-current		Total	
	2024	2023	2024	2023	2024	2023
Deferred income on public institutional grants	1,540	7,773	2,550	-	4,090	7,773
Deferred income on private grants	72,210	41,471	9,253	13,180	81,463	54,651
Other deferred income	395	1,786	-	-	395	1,786
Investment subsidies	-	-	51	53	51	53
Deferred income	74,145	51,030	11,854	13,233	85,999	64,263

Deferred income represents the portion of restricted funding received from public institutions and private grants that will be used in future years. Deferred income is shown under short-term liabilities for the portion that will be spent within one year, and long-term liabilities for those exceeding 12 months at year end. Investment subsidies are related to public funds provided to expand the MSF Logistique premises.

3.12 FINANCIAL DEBTS

In thousands of EUR

	2024	2023
Current borrowings and loans	2,787	1,817
Current capital lease obligation	55	67
Financial debts - current	2,843	1,884
Non-current borrowings and loans	22,860	25,324
Non-current capital lease obligation	-	-
Financial debts - non-current	22,860	25,324

Borrowings and other financial liabilities are recognised at fair value less transaction costs initially, and are subsequently measured at amortised cost using the effective interest method. One MSF entity has contracted a long-term loan to purchase the office building it uses for its own operations that is secured by a lien against the building.

3.13 PROVISIONS

Provisions are recognised when the following conditions are met : MSF has an obligation that has arisen as a result of a past event, an outflow of resources will be needed to settle the obligation, the timing and/or the amount of the outflow are uncertain, and a reliable estimate of the amount required to settle the obligation can be made.

Provisions classified as Legal provisions relate to ongoing legal actions. MSF is not subject to corporation income tax. Tax provisions relate to other types of tax e.g. payroll taxes.

Provisions - Non-current	21,629	4,359	(204)	(6,197)	844	250	20,682

3.14 ORGANISATIONAL CAPITAL

Organisational capital refers to:

- Capital for foundation. This corresponds to the capital certain MSF entities, such as foundations, need to have to fulfill legal requirements
- Minimum compulsory level of retained earnings
- Translation reserves as defined in Note 1.4
- Unrestricted funds which are unspent donor funds which MSF may use at its discretion to further its social mission.

Other movements in funds include:

- The reclassification of assets that were previously classified as restricted and for which the donor restriction has expired, because a stipulated time restriction ended, or the purpose restriction was accomplished
- Adjustments because timing differences are recorded on a cumulative basis in the current year. Adjustments made in the prior year therefore need to be reversed.

3.15 PENSION PLANS

In thousands of EUR

Economical benefit / economical obligation and pension benefit expenses	Contributions concerning the period	Pension benefit expenses (within personnel expenses)		Capital ratio	
	2024	2024	2023	2024	2023
MSF International pension institutions with surplus	6,788	6,824	7,596	111%	107%

The nature of pension plans for MSF staff depends on the regulations in effect in the country where the MSF entity that employs them is based and all relevant internal policies. In Switzerland, pension obligations are covered by a plan with an independent organisation. Contributions to a plan are recognised as an expense in the Statement of Financial Activities in the year in which they are incurred. MSF International employees benefit from a scheme covering retirement, invalidity pension and death, according to the provisions of the Swiss Federal Law for occupational retirement (LOB). The occupational benefits are provided by a collective foundation, Profond, according to a benefit plan: investment yield has no impact on premiums; the employer does not guarantee the benefit amount. The Plan is funded by the contributions of MSF International and the employees. The plan covers the usual occupational benefits: retirement and invalidity pension, and death benefits. Risks are insured by the collective Foundation.

The surplus is not recognised in the Statement of Financial Position, in compliance with Swiss GAAP FER/RPC. The pension plans of MSF entities that are not based in Switzerland are not considered for the purposes of this note as per Swiss GAAP FER/RPC.

4 RATIOS AND SECTORIAL INFORMATION

4.1 RATIOS

4.1.1 OPERATIONAL RATIOS

	In thousands of EUR		In thousands of EUR	
		2024		2023
Programme	1,510,419	63.4%	1,487,577	64.4%
Programme support	293,675	12.3%	287,382	12.5%
Awareness-raising, Access Campaign/APH*	55,936	2.3%	54,504	2.4%

5 OTHER INFORMATION

5.1 OFF-BALANCE SHEET COMMITMENTS

In thousands of EUR

	2024	2023
Guarantees provided by MSF entities	9,340	9,715
Rental contracts for office buildings & other field facilities	42,460	25,542
Other off-balance sheet commitments	1,926	1,802
Contribution to DNDi	2,000	4,000
Other off-balance sheet commitments	55,726	41,060

In thousands of EUR

	First Year	Year 2 to 5	Year 6 to 10	Total
Commitments related to rental contract distributed by maturity	17,312	20,883	4,265	42,460

MSF participated in the establishment of the Drugs for Neglected Diseases initiative (DNDi) with six other organisations: five public sector institutions – the Oswaldo Cruz Foundation from Brazil, the Indian Council for Medical Research, the Kenya Medical Research Institute, the Ministry of Health of Malaysia and France's Pasteur Institute – and one international research organisation, the Special Programme for Research and Training in Tropical Diseases, which is a permanent observer to the initiative.

DNDi became a legal entity in July 2003 and MSF was one of the founding partners. MSF's objective in its involvement in the creation of DNDi was to help create a research and development initiative for neglected diseases, which in time would be self-financing and in a position to work independently of MSF. In 2018, the IGA decided to support DNDi to the level of 4 million EUR per year until 2023. The commitment has been reduced for 2024-25 to 2 million EUR per year.

Commitments for project rental contracts are shown under Rental contracts for office buildings and other project facilities.

Derivatives on future cash flows

MSF International is responsible for implementing a key component of MSF's strategy to mitigate the impact of currency fluctuations on the financial situation of the MSF movement. It has been using foreign exchange forward contracts since early 2023. The strategy aims to cover up to 80% of expected net cash inflows to Operating Directorates over 12 months, to ensure that resources allocated to operations in particular are protected from adverse exchange rate movements, while maintaining a balance between risk mitigation and flexibility to respond to unforeseen circumstances. The outstanding contracts as of 31 December 2024 and 2023 were concluded in 10 currencies.

In thousands of EUR

	2024	2023
Value of open contracts at 31 December	403,118	302,057
Difference with value of non-EUR net commitments at 31 December forward value (replacement value)	(4,490)	(2,112)

MSF USA has agreed to provide guarantees to the banks used by MSF for the hedging programme to a maximum of USD 70 million. This amount has been reduced to USD 20 million in early 2025. This is not included in the off-balance sheet commitments above.

5.2 CONTINGENT ASSETS

Contingent assets are items that will become assets when a future condition is realised. In MSF, they mainly consist of legacies and bequests expected at year end but that are not yet legally transferred. Their best estimate value is 185.57 million EUR at the end of 2024 and 29.367 million EUR in 2023.

5.3 SUBSEQUENT EVENTS

Recent decisions by governments on funding to non-governmental and other international organisations have the potential to materially impact their operations. Although the financial impact on the MSF Movement is challenging to quantify at the time of issuance of these accounts, we are actively monitoring the situation and the possible effect on our programmes, initiatives and the entirety of our operations, and are taking anticipatory steps accordingly.

There have been no other significant events impacting the 2024 annual accounts between the date the balance sheet was prepared and the date of signing the accounts.

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organisation that delivers emergency aid to people affected by armed conflict, epidemics, exclusion from healthcare and natural disasters. MSF offers assistance to people based on need and irrespective of race, religion, gender or political affiliation.
