ACTIVITIES AND ORGANISATION

For the year ended 31 December 2025

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organisation. We deliver emergency aid to people affected by armed conflict, epidemics, natural disasters and exclusion from healthcare.

This report is presented along with the financial statements of the organisation for the year ended 31 December 2025. These financial statements are a means of transparency and accountability, illustrating the financial situation of the movement as a whole. They have been prepared in accordance with the accounting policies of Swiss GAAP FER/RPC, which are set out in Note 1.1. to the Financial Statements.

OBJECTIVES AND POLICIES

MSF offers humanitarian assistance to people based on need and irrespective of race, religion, gender or political affiliation. We work to save lives, alleviate suffering and restore dignity. Our actions are guided by medical ethics, and the principles of neutrality and impartiality.

In order to be able to access and assist people in need, our operational policies must be scrupulously independent of governments, as well as of religious and economic powers. We conduct our own assessments, manage our projects directly, and monitor the impact of our assistance. We do not accept funds from governments or other parties who are directly involved in the conflicts to which MSF is responding. We rely on the generosity of private individuals for the majority of our funding.

In 2025, 4,127* health professionals, logistics specialists and administrative staff of all nationalities were assigned in medical programmes, to work with 39,822 locally hired staff* in over 70 countries.

MSF is constantly seeking to improve the quality, relevance and extent of its assistance. MSF Access, formerly known as the Access

Campaign, supports our field programmes by pushing for improved access to existing medicines, diagnostics, and vaccines, and the development of better, more appropriate medicines. MSF also funds research into the development of drugs for neglected diseases.

ORGANISATIONAL STRUCTURE

MSF is a non-profit, self-governed organisation. Founded in Paris, France in 1971, MSF today is a worldwide movement of associations, with offices all over the world. Specialised organisations – called satellites – are in charge of specific activities such as humanitarian relief supplies, epidemiological and medical research studies, and research on humanitarian and social action.

In 2011, MSF's international governance structure was reformed. MSF International was registered in Switzerland and in December 2011 the first annual MSF International General Assembly (IGA) was held. In subsequent years, the IGA would be held in June. The IGA comprises two representatives of each MSF association, three representatives elected by the individual members of MSF International, and the International President. The IGA is the highest authority of MSF International, and is responsible for safeguarding MSF's medical humanitarian mission and providing strategic orientation to all MSF entities.

The International Board acts on behalf of, and is accountable to, the IGA. It is made up of representatives of MSF's operational directorates as well as a group elected by the IGA, and is chaired by the International President. The International Board prepares and presents the international combined Financial Statements to the IGA for approval.

*full time equivalent

ALL THOSE WORKING WITH MSF AGREE TO ABIDE BY THE PRINCIPLES OF THE CHARTER OF MSF AS FOLLOWS:

THE CHARTER OF MÉDECINS SANS FRONTIÈRES

Médecins Sans Frontières is a private international association. The association is made up mainly of doctors and health sector workers and is also open to all other professions that might help in achieving its aims. All of its members agree to honour the following principles:

Médecins Sans Frontières provides assistance to populations in distress, to victims of natural or man-made disasters and to victims of armed conflict. They do so irrespective of race, religion, creed or political convictions.

Médecins Sans Frontières observes neutrality and impartiality in the name of universal medical ethics and the right to humanitarian assistance and claims full and unhindered freedom in the exercise of its functions.

Members undertake to respect their professional code of ethics and to maintain complete independence from all political, economic or religious powers.

As volunteers, members understand the risks and dangers of the missions they carry out and make no claim for themselves or their assigns for any form of compensation other than that which the association might be able to afford them.

FOREWORD

In moments of crisis and exclusion, Médecins Sans Frontières (MSF) teams strive to save lives and alleviate people's suffering. We provide the care that we can with our colleagues, collaborators and supporters, but in 2025 we saw growing gaps that are not ours to fill. When people with power renege on their responsibilities and shared humanity, the communities we serve pay a high price.

In many of the places where we worked, we saw a deficit of accountability that ranged from negligence to flagrant violations of international humanitarian law. At the end of October, we appealed for civilians in El-Fasher, Sudan, to be spared from a Rapid Support Forces-led massacre that Sudanese people, MSF and other organisations had warned about. This appeal went unheeded. As did our repeated calls for the protection of humanitarian personnel in Gaza, prompted by the Israeli forces killing six of our colleagues during the year. Meanwhile, in South Sudan, the worst cholera outbreak in the country's history entered its second year – a grim milestone for a disease that is both easily preventable and treatable.

MSF cannot stop a massacre or an airstrike, nor equip a nationwide outbreak response. But we do bring care to the communities who bear the consequences of this lack of accountability in lost lives, homes and opportunities. Our work around the world reminds us that systems, laws and protocols can only protect people from harm and disease when they are respected.

People in positions of political leadership matched this deficit of accountability with a deficit of solidarity, making choices that ignored our shared humanity, seen in the tightening of budgets and borders. In 2025, every cut to a humanitarian organisation's budget meant more than just a line on a spreadsheet; it was people going without drinking water in Haiti, HIV medication in Honduras and maternal care in South Sudan. While MSF received only 0.96% of our funding from governments, we worked in places where the effects of withdrawn funding were clear. In one hospital in Somalia, our team met parents who had travelled for 190 kilometres to seek malnutrition care for their children after local health facilities closed. This is not an isolated example. People across the globe have had their options reduced

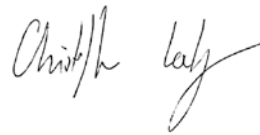

through these inhumane policy choices. However, we do not have to accept them as a 'new normal'.

When Italy implemented policies, such as their 'distant port' practice, designed to hinder humanitarian organisations' search and rescue work in the Central Mediterranean Sea, we were forced to stop our activities on our vessel the *Geo Barents*. In November 2025, we relaunched operations on a smaller, faster boat, *Oyvon*, enabling us to return to open sea from port more quickly and save more lives. MSF teams the world over find strategies to deliver care in spite of inhumane policies.

When an Ebola outbreak was declared in September in Democratic Republic of Congo, MSF swiftly mobilised alongside the World Health Organization, local health authorities and the community to bring the outbreak under control. This collaborative effort, and the quality of care provided, saved lives and reminded us that protocols protect people from disease when they are put into practice. The outbreak was declared over in December.

The world we live in is not devoid of accountability and solidarity. In an emergency, it is neighbours who assist first. And MSF can only step in to help because we are staffed and funded by people who share our values. While we are unable to fill the gaps left by leaders with political power, we are making a difference with every act of care. Our work is only possible because millions are practicing their shared commitment to humanitarianism.

We send a heartfelt thank you to every humanitarian who continues to stand in solidarity against inhumanity.

Christopher Lockyear
Secretary General, MSF International
(until March 2026)

Dr Javid Abdelmoneim
International President, MSF

YEAR IN REVIEW

By MSF Directors of Operations*

The scale of people’s needs – whether due to war, internal instability, disease outbreaks, or the difficulty in accessing medical care – became further highlighted in 2025 amid a climate of aid cuts and anti-humanitarian rhetoric. Médecins Sans Frontières (MSF) teams around the world worked to assist people in 72 countries, in an ongoing act of solidarity.

THREATS TO HUMANITARIAN RESPONSE

Humanitarian funding had been declining in the years before the United States (US) started to make ruthless cuts to its aid budget in January 2025,¹ coinciding with the beginning of President Trump’s second term. Under its America First Global Health Strategy, the US administration gutted vital funding to the Global Fund, PEPFAR,² and USAID, thereby cutting off support to lifesaving health programmes. Other governments also cut their aid funding.

MSF was not directly financially affected by the funding cuts. But our teams spent most of the year trying to understand and navigate the gaps, as organisations around us closed or scaled back their activities. In some places, demand for our services consequently increased.

In Somalia, disruptions to aid halted shipments of therapeutic milk for months. As a result, the number of severely malnourished children admitted to MSF-supported facilities rose 73 per cent in the first nine months of 2025, compared to the same period in 2024. In Democratic Republic of Congo (DRC), we made unplanned purchases of antiretroviral medicines, to provide to some groups of people living with HIV after their treatment programmes were stopped, and for post-exposure prophylaxis for HIV, used to treat victims and survivors of sexual violence, after the dismantling of USAID led to the cancellation of an order for 100,000 post-rape kits.

SUDAN – THE WORLD’S WORST HUMANITARIAN CRISIS

April marked two years since the outbreak of conflict in Sudan between the Sudanese Armed Forces and the paramilitary Rapid Support Forces (RSF) and their allies. Both sides have committed atrocities, especially in Darfur. Despite prior warning for months from MSF and others, the scenes following ethnic cleansing by the RSF in Zamzam displacement camp and in nearby El Fasher were particularly ghastly.

Although we were able to regain access to the capital, Khartoum, the situation for people in many parts of the country remained dire, as the health system has collapsed and few humanitarian organisations are present. Our teams responded to high levels of malnutrition and mental health issues, as well as horrific sexual violence. The crisis is not contained within Sudan; hundreds of thousands of people have fled into neighbouring Chad and South Sudan, where we also work.

However, our efforts in Sudan were often constrained by the high levels of violence in some places, or by bureaucratic demands, which hindered the transport of staff and supplies. In Zalingei, measles cases surged in the last quarter of the year following a failure to deliver and coordinate measles vaccines. It all translates to an insufficient humanitarian response, making Sudan the world’s worst humanitarian crisis.

GENOCIDE IN GAZA

In the Gaza Strip, Palestine, Israel continued to pursue what has now been widely described as a genocide, in retaliation for the horrendous attacks committed by Hamas in October 2023. Israeli forces continued to kill

Palestinians, displace them from their neighbourhoods, and deny sufficient supplies of food and water, and access to healthcare. Living conditions for people in Gaza City and the north of Gaza deteriorated even further in September, as they became trapped in “a siege within a siege”.

In late May, the Gaza Humanitarian Foundation, an Israeli-US initiative, was launched as part of a cynical, degrading attempt at providing “aid”. Their food distribution sites soon degenerated into scenes of slaughter, as around 2,600 people were killed and thousands more injured.³ We treated many people who had been wounded or traumatised by what they had seen.

Our teams throughout the Strip quickly adapted our response as frontlines moved or evacuation orders were received. However, even healthcare facilities were not spared: Israeli forces attacked and targeted hospitals, killing personnel. Six of our colleagues were killed in Gaza in 2025, bringing the total number to 15 since October 2023. We deeply mourn their loss.

Despite the ceasefire implemented on 11 October 2025, Israel continues to kill people and target civilian infrastructure, and impede the entry of aid into Gaza.

In the West Bank, violence and the erasure of Palestinians from their land – described as ethnic cleansing – intensified, as Israel expanded settlements, destroying refugee camps and homes. Thousands of people were forcibly displaced and prevented from seeking medical care, including much-needed psychological support to cope with the extreme hardship of their daily lives.

On 30 December, Israel informed 37 NGOs, including MSF, that their registration to work in Palestine had expired. The Israeli authorities accused us of not cooperating with them on registration, even though the new procedures would endanger our staff and despite us trying to engage with them, unsuccessfully, for many months. At the end of the year, Israel instigated a smear campaign against aid organisations, with MSF as the main target, in an attempt to arbitrarily restrict access to aid for Palestinians and remove independent witnesses working on the ground.

The war on Gaza has had repercussions across the wider Middle East, with growing instability in Yemen, and Israel continuing to bomb southern Lebanon, despite the ceasefire implemented in November 2024.

RESPONDING TO THE LONG-LASTING TRAUMA OF CONFLICT

The war in Ukraine showed no sign of abating in 2025. Russian drone attacks and bombing increased, targeting civilian buildings and energy infrastructure, leaving people exposed to freezing temperatures during the winter months. With no ceasefire in sight, we continue to address people’s ongoing physical and psychological trauma, while constantly adapting to shifting frontlines.

Since the fall of the Assad regime in Syria in 2024, MSF has been able to return to areas of the country that had been inaccessible for a decade. Our teams are helping to restore health services and respond to the urgent needs of people still affected by sporadic fighting.

NEGLECTED CRISES

The situation in South Sudan sharply deteriorated during the year, as conflict in the country restarted. People have been left behind in crisis, as global attention and funding shifted elsewhere. Communities endured displacement, flooding, malnutrition and multiple disease outbreaks, including the largest cholera epidemic in the country's history.

The decline in international assistance has stretched South Sudan's health system to breaking point, with chronic shortages of medicines and staff. To make matters worse, health facilities and personnel have been targeted in the conflict. In 2025, we experienced nine attacks on our facilities and staff in Central Equatoria, Jonglei, and Upper Nile states. Ulang and Old Fangak hospitals were forced to close and staff in our facilities in Pieri and Lankien, Jonglei, had to evacuate following airstrikes.

In Port-au-Prince, Haiti's capital, anarchy continues to reign, four years after President Moïse's assassination. People are subjected to appalling violence by gangs and the police, and are too afraid to leave their homes to seek healthcare. Sexual violence is being used systematically to terrorise women and girls: for example, the number of victims and survivors treated at our Pran Men'm clinic almost tripled between 2021 and 2025.

We maintained activities where possible, despite a deliberate attack on a convoy of our ambulances and intense fighting near our facilities, but we were forced to suspend work in Turgeau in March and Carrefour in April. In October, we made the difficult decision to permanently close Turgeau due to insecurity, further reducing people's access to healthcare.

The long-running conflict in northeastern DRC continued in 2025, causing repeated waves of displacement and a dramatic rise in basic needs, as the M23 armed group rapidly advanced through North and South Kivu provinces.

Sadly, MSF staff were not immune to the violence; in the space of four months, three of our colleagues were shot dead in North Kivu. Peace agreements have had little or no effect, and the fighting goes on.

In Myanmar, another country far from the international spotlight, fighting persisted in several areas, including Rakhine state. In December, dozens of people were killed when a busy hospital was bombed in Rakhine. In May, a powerful 7.7 magnitude earthquake struck the centre of the country, killing over 5,000 people and injuring and displacing thousands more. Our teams responded by providing medical and mental healthcare, as well as water and sanitation needs.

The campaign of violence against the Rohingya continued in Myanmar. Those still living there face severe restrictions on their movements and struggle to obtain even basic healthcare. For the one million Rohingya who live in the Cox's Bazar refugee camps in Bangladesh, the inhumane living conditions are being exacerbated by cuts to funding.

ADAPTING ACTIVITIES FOR PEOPLE ON THE MOVE

By the end of 2025, we downsized or wound up most of our migration-related projects in Central America, including those in Mexico, Panama, Guatemala, and Honduras. Changes in migration policies in the US, and in some Central American countries, resulted in a significant decrease in people heading north during the year.

In Europe, our teams continued to work with migrants and asylum seekers in Greece, Italy, France, Belgium, Serbia, and Poland. We spoke out about inhumane migration policies implemented by some of these countries, and by the European Union; in Poland, we urged the authorities to uphold the right for people to seek asylum on Polish territory, while in France, we called for recognition and protection for minors.

Our work in Libya was suspended by authorities, alongside other organisations working on migration, leaving hundreds of migrants forgotten in the hand of traffickers.

© Ante Bussmann/MSF

In November, we resumed our search and rescue operations in the Central Mediterranean, the world's deadliest migration route,⁴ with a new, faster boat, the *Oyvon*. Our teams also launched activities in Senegal and Mauritania to assist people on the move on the perilous West Africa/Atlantic route, as they head for the Canary Islands.

RESPONDING TO NATURAL HAZARDS

During the year, we also assisted people affected by natural hazards. In November and December, we worked in Jamaica for the first time, in response to the devastation caused by Hurricane Melissa. MSF provided emergency medical care, rehabilitated damaged health facilities, and restored water, sanitation and hygiene services across the battered island. After assessing the situation in Cuba, we donated supplies of essential drugs.

In October, we provided emergency medical and logistical assistance after Hurricane Priscilla hit Mexico. In the Philippines, we worked to restore basic healthcare and water and sanitation after Cyclone Ditwah caused widespread flooding and landslides in November.

TACKLING DISEASES

For the third year running, we responded to large-scale outbreaks of cholera, a deadly yet entirely preventable disease, that once again claimed thousands of lives across the world. Our teams worked to curb epidemics in DRC, South Sudan, Sudan, Yemen, Mozambique, Tanzania, and across the Sahel. In many of these places, outbreaks were exacerbated by conflict and displacement.

Significant progress was made in the treatment of paediatric tuberculosis (TB) in 2025. MSF's Test, Avoid, Cure Tuberculosis in Children (TACTiC) project aims to reduce the high death rate of children with TB. The project released data from its operational research towards the end of the year, which demonstrated that implementing the World Health Organization's recommended treatment decision algorithms improve diagnosis and enables nearly double the number of children to start lifesaving treatment. However, these efforts are being compromised by funding cuts on diagnostics and treatment.

We are extremely grateful to our 7.5 million donors, who make our work possible, and to our nearly 66,000 staff, who remain committed to delivering care and assistance wherever it is needed, despite ongoing threats to humanitarian activities across the world.

TREASURER'S REPORT

COMBINED ACCOUNTS 2025

It is again my pleasure to present the audited combined financial statements of the MSF movement, this time for 2025. The combined accounts are prepared based on the audited financial statements of the 51 entities listed in Note 1.2, including sections, branch offices, satellite organisations, and MSF International. The combined financial statements present a picture of MSF globally. They are publicly shared to uphold the principles of accountability and transparency MSF is committed to.

INCOME

The 2025 income reached 2,605M EUR (€2.605 billion), an increase of 10.3 per cent from 2024 (2,362M EUR). More than 7.5 million individual supporters, together with private institutions, donated 2,560M EUR, or 98.3 per cent of MSF's income (2,313 M EUR & 97.9 per cent in 2024). Gifts from individuals totalled 2,233M EUR, or 85.7 per cent of overall income (2,015 M EUR & 85.3 per cent in 2024). Nine of the 10 countries where the highest amounts of income are generated remained the same, demonstrating the stability of our fundraising base, with 78.5 per cent of our private income originating from these countries (77.3 per cent in 2024). Income from government agencies, as well as from public and multilateral organisations, sales of relief goods to other humanitarian organisations, and interest on financial investments, accounted for the remaining 45M EUR or 1.7 per cent of total income (49M EUR & 2.1 per cent in 2024).

EXPENSES

Total operating expenses grew by 4.9 per cent in 2025, reaching 2,500M EUR (2,384M EUR in 2024). Social mission expenses totaled 1,975M EUR (1,882M EUR in 2024). They represented 79.0 per cent of total operating expenses (78.9 per cent in 2024). Additional breakdowns for the social mission expenses are provided in the table below:

In millions of EUR

	2025	2024
Programmes	1,580	1,510
Programme support	316	294
Awareness-raising	63	56
Other humanitarian activities	16	22
Social mission expenses	1,975	1,882

Fundraising expenses increased to 398M EUR, or 15.9 per cent of total operating expenses (373M EUR & 15.6 per cent in 2024). General management and administration expenses amounted to 127M EUR, or 5.1 per cent of total operating expenses (129M EUR & 5.4 per cent in 2024).

Although MSF's brand remains tremendously strong, and private income grew significantly in 2025, the organisation continues to operate in an increasingly competitive and complex fundraising environment. Sustaining long-term growth requires continued investment in fundraising capabilities, digital tools, donor engagement, and support functions. The increase in operating expenses also reflects inflationary pressures, staffing adjustments in certain geographies, and the growing complexity of humanitarian operations. MSF remains focused on directing the maximum proportion of funds to its social mission, while maintaining the operational capacity and resilience required to respond effectively to evolving humanitarian needs.

PROGRAMME EXPENDITURE

Programme expenses reached an all-time high of 1,580M EUR (€1.58 billion) in 2025, a 4.6 per cent increase from 2024 (1,510M EUR). Detailed financial and human resource information for all countries where MSF operates is provided in the appendix of the financial statements.

The 10 countries where MSF spent the most in 2025 represented 61 per cent of total programme expenses (58 per cent in 2024), while the top 20 countries encompassed 81 per cent (79 per cent in 2024). As in recent years, and even more evidently in 2025, this reflects both the persistence and increasing complexity of humanitarian crises in the countries where MSF is most heavily engaged. Details are provided in the table below for the 10 countries where MSF spent the most in 2025. Although the same 10 countries appear as in 2024, it is worth noting that there were variations in ranking and expenditure levels at the country level.

In millions of EUR

	2025
Democratic Republic of Congo	141
Sudan	135
Palestine	121
South Sudan	113
Nigeria	90
Yemen	89
Chad	72
Central African Republic	68
Afghanistan	67
Niger	61
Top 10 countries	957
Next 10 countries	328
Largest 20 country programmes	1,285

MSF's resources enabled its teams to respond to complex humanitarian crises and sustain large-scale emergency medical operations across multiple regions.

RESULTS FOR THE YEAR AND RESERVES

The resulting operating surplus was 105.2M EUR (€105.2 million) in 2025 (compared with a 21.5M EUR deficit in 2024). After adjusting for non-operating gains of 23M EUR and recognising the impact of updating exchange rates (-47.6M EUR), the 2025 result was a surplus of 80.6M EUR (33.7M EUR in 2024). This surplus contributed to an increase in the level of equity reserves (funds and capital) as of 31 December 2025 of 51M EUR to 1,598M EUR, the equivalent of 7.7 months of the year's expenses (7.8 months in 2024). Even though a surplus was generated in 2025, adding to the reserves, continued growth in operational expenses reduced the level of reserves expressed in terms of months of expense, and requires MSF to remain prudent in managing its resources.

The level of liquid (cash or equivalents, short-term deposits and current financial investments) reserves was 1,253M EUR (1,204M EUR in 2024). As of year-end 2025, liquid reserves represent the equivalent of 6.0 months of the year's expenses (6.1 months for 2024).

While the overall level of reserves MSF enjoys continues to be an indicator of MSF's financial health, the ever-increasing demand for humanitarian services, and the related growth in expenses, in particular in this period of change and uncertainty, are factors that MSF needs to keep at the forefront of every decision made. In addition, increasing geopolitical instability, regulatory and sanctions-related constraints, cybersecurity risks, and broader economic uncertainty may continue to affect operational delivery, funding flows, and the cost of humanitarian operations. MSF must exercise prudence in setting priorities and launching new initiatives and programmes, and continue using funds judiciously. This will ensure that MSF continues to provide Operational Directorates with the flexibility needed to deliver on the movement's objectives and commitments.

Yves McGale, International Treasurer

AUDITOR'S REPORT

Ernst & Young Ltd
Place de Pont-Rouge 1
P.O. Box 1575
CH-1211 Geneva 26

To the Members of International General Assembly of
Médecins Sans Frontières International, Geneva

Geneva, 21 May 2026

Independent auditor's report of the combined financial statements

Opinion

We have audited the combined financial statements of Médecins Sans Frontières International (the reporting entity, consisting of the entities set out in note 1.3 to the combined financial statements), which comprise the combined statement of financial position as of 31 December 2025, the combined statement of financial activities, the combined statement of changes in funds and the combined statement of cash flows for the year then ended, and notes to the combined financial statements, including a summary of significant accounting policies.

In our opinion, the combined financial statements (pages 12 to 39) give a true and fair view of the combined financial position of Médecins Sans Frontières International as of 31 December 2025 and of its combined financial performance, and its combined cash flows for the year then ended in accordance with Swiss GAAP FER.

Basis for opinion

We conducted our audit in accordance with Swiss Standards on Auditing (SA-CH). Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the combined financial statements" section of our report. We are independent of Médecins Sans Frontières International in accordance with the requirements of the Swiss audit profession and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The International Board is responsible for the other information. The other information comprises the information included in the annual report but does not include the combined financial statements and our auditor's reports thereon.

Our opinion on the combined financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the combined financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the combined financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

International Board's responsibilities for the combined financial statements

The International Board is responsible for the preparation of the combined financial statements, which give a true and fair view in accordance with Swiss GAAP FER and for such internal control as the International Board determines is necessary to enable the preparation of combined financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the combined financial statements, the International Board is responsible for assessing the ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting. The International Board is further responsible for selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibilities for the audit of the combined financial statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these combined financial statements.

A further description of our responsibilities for the audit of the combined financial statements is located on EXPERTsuisse's website at: <https://www.expertsuisse.ch/en/audit-report>. This description forms an integral part of our report.

NOTES TO THE COMBINED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2025

1 DESCRIPTION OF THE MSF MOVEMENT AND BASIS OF REPORTING

1.1 BASIS AND SCOPE OF COMBINATION

The MSF movement (“MSF”) is a self-governed, member-based organisation. Its members are local associations which are internally known as Sections. Sections are the foundational structures of MSF. They are offices that enable, implement, support, and govern the delivery of our social mission. They recruit staff, organise fundraising, and raise awareness on the humanitarian crises MSF teams are witnessing and are responding to.

Sections help fund and support seven Operational Directorates that directly manage medical humanitarian operations. Each Operational Directorate is hosted by a Section.

A number of MSF sections have opened branch offices in different countries to further expand their support activities. As of December 2025, there were 18 branch offices worldwide.

Additional satellite offices have been established to support our programmes, mainly in the areas of logistics, supply and epidemiology. A number of those satellite offices are also independent legal entities.

MSF International provides coordination, information and support to the MSF movement, supports its governance bodies, and implements international projects and initiatives as requested.

The Combined Financial Statements present the overall financial situation and results of all legally independent MSF entities.

1.2 NATURE AND ALLOCATION OF FINANCIAL RESOURCES WITHIN THE MSF MOVEMENT

Financial decisions made by MSF sections and Operational Directorates are guided by the objective to prioritise and optimise the funding of medical-humanitarian operations:

- Independence is a key value of MSF, as it is critical to its operational effectiveness. Fundraising at MSF aims to secure sustainable, long-term, diversified income streams with no or manageable external restrictions, in order to preserve this independence.
- Income is raised by sections across the world (Note 2.2). Sections allocate this income, net of their own operating expenses, to Operational Directorates that run and manage medical-humanitarian operations. Sections commit to volumes and proportions of income to Operational Directorates on a multi-year basis.
- Operational Directorates use these funds to deliver and support their operations, and account for their use, both internally and externally.
- Satellites provide services at cost to Operational Directorates.
- Sections maintain reserves levels in accordance with regulatory requirements and their risk appetite.
- Robust financial internal control systems aim to ensure clear accountability for the generation and use of funds and to safeguard funds received by MSF.

These practices help maximize the volume and proportion of funding allocated to social mission expenses, and programme expenses more specifically, while ensuring that fundraising activities and other essential organizational functions remain sustainable.

1.3 BASIS OF PREPARATION AND PRESENTATION

The Combined Accounts present the financial position and results of all entities that are part of the MSF Movement as if the movement were one single economic entity. A combination aggregates the Financial Statements of separate entities which are not inter-related by investments, whereas a consolidation presents the Financial Statements of a group (parent and subsidiaries).

These Financial Statements combine the financial position and results of the MSF entities in full. All transactions between MSF entities and inter-entity balances are eliminated. They were reviewed by the International Board on 21 May 2026 and were approved.

The Combined Financial Statements comply with the articles of the association of MSF International, and with Swiss Generally Accepted Accounting Principles (Swiss GAAP FER/RPC including Swiss GAAP FER/RPC 21). The Combined Financial Statements are presented in thousands of EUR. They are prepared in accordance with the historical cost convention. Figures are rounded to the nearest thousand. Rounding differences may exist within summations.

The Combined Financial Statements include the Combined Statement of Financial Activities, the Combined Statement of Financial Position, the Combined Statement of Changes in Funds, the Combined Statement of Cash Flows, and Notes to the Combined Financial Statements.

All legally independent MSF entities – including Sections, legally independent Branch Offices, and Satellite Offices – prepare their financial statements in accordance with the legal requirements of their respective jurisdictions. Sections that host Operational Directorates include all transactions and balances related to activities in countries of operations in their financial statements. The financial statements of all MSF entities are audited externally each year.

Combined organisational capital

Since the first combination of an entity does not result from the purchase of shares, combined organisational capital represents the aggregation of combined entities’ capital. Investments between combined entities are eliminated against capital.

Initial measurement of the combined entities’ assets and liabilities

Since the first combination of an entity does not result from the purchase of shares but from a pooling of economic interests, neither goodwill nor fair value adjustments exist. The assets and liabilities of each combined entity are initially measured at net book value, based on the Swiss Generally Accepted Accounting Principles and all transactions between entities have been eliminated.

The 2025 and 2024 financial statements of the following entities are included in the Combined Financial Statements:

MSF Argentina	Avenida Santa Fe 4559 C1425BHH, Ciudad de Buenos Aires, Argentina	
MSF Australia	Level 8, 700 Harris Street, Ultimo, NSW 2007, Australia

Shared IT Services	Zenklova 2245/29, 180 00 Praha 8, Czech Republic	

1.4 RELATED PARTIES

All entities listed in Note 1.3 are related parties, as are the International Board members discussed under Note 6.3.2 – Remuneration of International Directors and Managers.

1.5 CURRENCY TRANSLATION

The individual Statements of Financial Position of the combined entities are translated into EUR at the year-end rate. The individual Statements of Financial Activities of the combined entities are translated at the average rate for the current year (Note 2.2.9). The translation reserve is recognised in the Statement of Financial Position, and cumulates the historical gains/losses resulting from applying different rates to the Statement of Financial Position and to the Statement of Financial Activities.

The main currency exchange rates compared to the EUR are as follows:

	Closing rate 2025	2024	Average rate 2025	2024
AED	4.311	3.814	4.151	3.814

1.6 CHANGE IN ACCOUNTING POLICIES AND DISCLOSURES

There have been no changes in accounting policies in 2025 or 2024.

1.7 FINANCIAL RISK MANAGEMENT

Due to the nature of its activities, MSF might be exposed to financial market risk - including foreign currency risk, interest rate risk, credit risk, and liquidity risk.

Risk management is conducted by the Board of Directors of each MSF entity. Risks are assessed in collaboration with the operating units and any mitigation measure is decided and implemented under the supervision of the Board of Directors of each entity.

Foreign currency risk

MSF receives and spends funds in a variety of currencies. Foreign exchange fluctuations affect budgets, the cost of transactions, and the value of balances. MSF uses forward contracts to hedge the currency risks linked to net income flows in a number of currencies.

Interest rate risk

MSF entities may invest cash held in excess of immediate needs. They may also have borrowed funds to fund major investments such as buildings. MSF entities are therefore subject to interest rate risk directly. The risk is however limited, in particular because loan agreements are made at fixed rates.

Credit risk

Management of counter-party risk is essential to ensure that cash and cash equivalents are secure and that receivables are collectible. MSF entities use reputable banks. Their investments of cash balances that exceed immediate needs are guided by entity-specific policies in line with the MSF financial investment policy framework. MSF entities monitor their receivables to ensure that they are fully collectible. These receivables are from reliable third parties.

Liquidity risk

Cash flows can be difficult to project because the timing of certain fundraising streams can be more challenging to predict, in particular during periods of economic uncertainty. In addition, cash outflow projections are affected by unplanned emergency responses. The MSF Reserves Policy seeks to ensure that sufficient levels of reserves exist to meet working capital needs at all times and to provide a buffer for emergencies.

2 NOTES TO THE COMBINED STATEMENT OF FINANCIAL ACTIVITIES

2.1 OPERATING INCOME

MSF's income comprises contributions from private donors and public institutions, as well as revenues from other activities. Private income is donated by individuals and private organisations (companies, trusts and foundations, and other non-profit organisations).

Public institutional income represents grants (i.e. contributions based on contracts for specific projects), and donations from public institutional bodies, such as governments or decentralised institutional bodies. MSF does not accept funds from governments or other parties which are directly involved in conflicts to which MSF is responding. Since 2016, MSF has chosen not to accept funding from the European Union, its Member States, and Norway in response to EU decisions on migration policy.

Other income is mainly derived from merchandising, equipment, and services provided to others.

Donations

Donations are based on non-reciprocal transfers of cash or other assets, or cancellation of liabilities. They are recognised as income upon receipt.

Grants

Income from grants, whether provided by individuals, private organisations or public institutions, equals the value of the allowable expenses under the grant conditions incurred in the current year. At year-end, the difference between the cash received, and the cumulative expenses incurred, is accounted for as grants receivable or deferred income.

Restrictions

Income is considered as restricted when it is subject to a donor-imposed restriction. A donor-imposed restriction is a stipulation and limitation on the use of contributed assets or monetary donations. The restriction can relate to purpose (country, programme or activity), time to implement activities, or other specific conditions imposed by donors. Funds received for emergencies are treated as restricted if the emergency is explicitly specified by the donor or can be inferred from circumstances. They are otherwise regarded as unrestricted, and are available for MSF operations.

Restricted funds are mostly spent in the year they are received.

Restricted funds can be permanently or temporarily restricted. Permanent restrictions relate to funds the donor has required MSF to hold for long term use. Temporary restrictions refer to funding that can be used once the conditions set by the donor have been fulfilled.

Schedule 1: "International Emergency Fund (IEF)" shows the sources and uses of the International Emergency Fund (IEF), a new fundraising mechanism initiated in 2025.

Other changes in temporarily restricted funds by country are presented in Schedule 2: "Temporarily Restricted Funds by country/project". Only countries where movements exceeded 500,000 EUR are shown individually. A zero balance at the end of the year for a specific country indicates that funds that were restricted to activities in that country have been fully used. It does not imply that MSF has ceased activities in that country. MSF's decision to operate in a given context is primarily driven by medical and humanitarian needs, and not the allocation of grants or donations.

"Other movements" in Schedules 1 and 2 mostly relate to reclassification or changes in the nature of the restriction of the funds; for instance when time-restricted funds are released from their restriction.

In-kind donations and services

MSF occasionally receives donations in kind, primarily in the form of the free use of goods or services (drugs and medical equipment in projects, consultancies and travel miles in headquarters). These contributions to MSF's humanitarian projects are not recorded in the combined accounts. They are estimated at fair market value based on the donation certificate, or on the contract entered into with the donors in the accounts of MSF entities that receive them.

	<i>In thousands of EUR</i>	
	2025	2024
Headquarters	8,153	5,564
Programme expenses	2,664	2,859

TOTAL AFTER OVERHEADS ALLOCATION 2024	373,044	128,757	501,801	-	-	2,383,793

Expenses are allocated according to the full cost method. Expenses under each expense category include direct costs and an apportionment of indirect costs (overheads). Therefore, all expenditure categories include direct costs and allocated overheads (e.g. building costs and depreciation).

Overheads correspond to expenses which are required to operate general organisational functions, and which cannot be directly attributed to any other cost category. They generally relate to facility management.

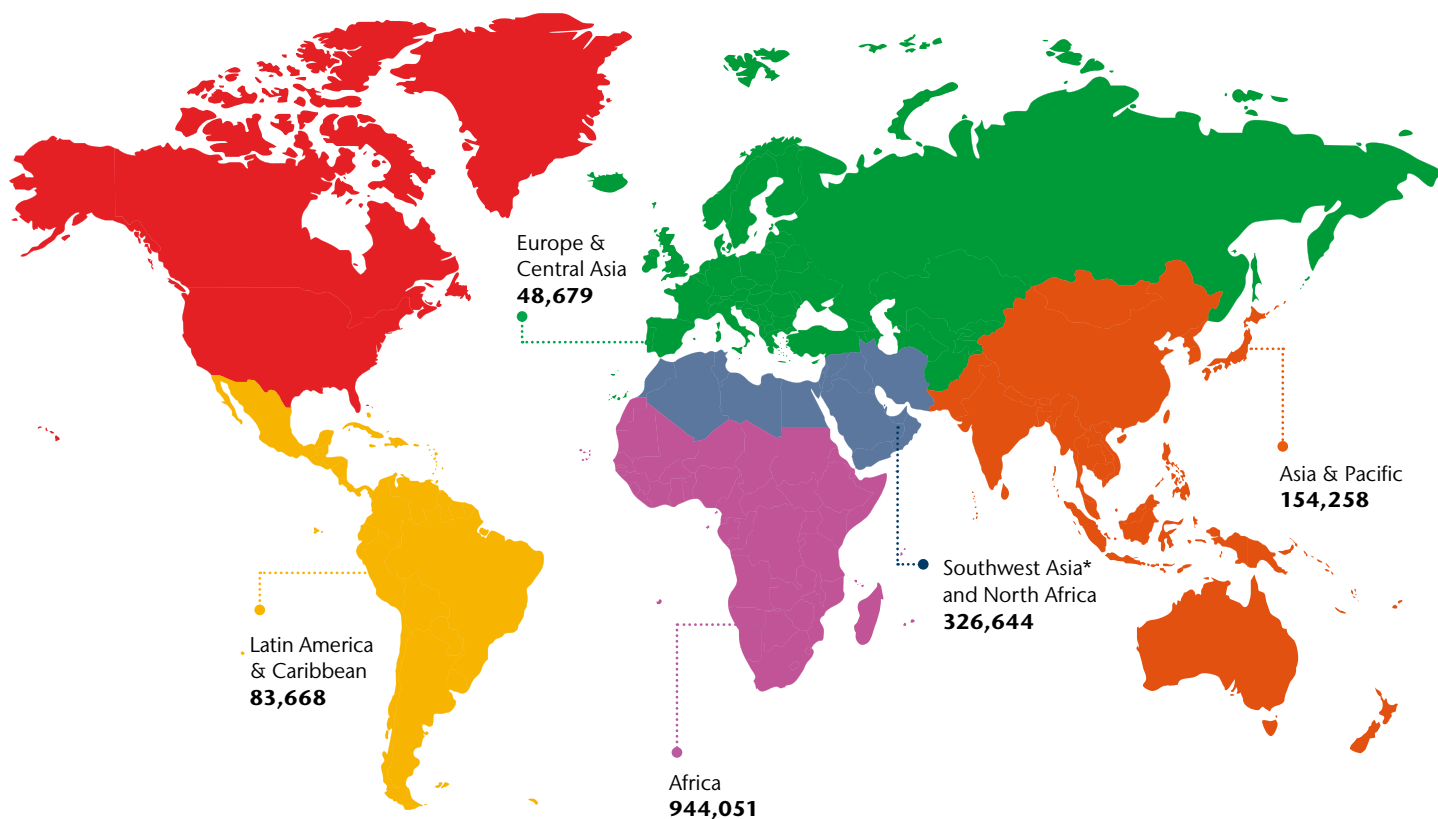

2.2.2 PERSONNEL EXPENSES*In thousands of EUR*

Programme expenses represent expenses incurred in our programmes of operations, or by the headquarters on behalf of our programmes, as well as grants/donations awarded/given to other organisations.

Transversal expenses are composed of activities covering more than one country, such as search and rescue operations, which represent 3.2M EUR in 2025 (9.2M EUR in 2024), and other transversal and unallocated activities.

*Southwest Asia refers to the region more commonly known as the Middle East.

2.2.4 PROGRAMME SUPPORT

Programme support relates to expenses incurred in headquarters and regional offices in order to carry out MSF humanitarian operations (e.g. project design, monitoring and evaluation, recruitment of international staff, activities designed to improve the quality and the effectiveness of MSF operations).

2.2.5 AWARENESS-RAISING, MSF ACCESS

Awareness-raising expenses are costs incurred by MSF public communications activities in furtherance of its social mission. They are related to situations where MSF acts as a witness, and speaks out about the plight of the people it serves, to alert, mobilise or denounce, and put pressure on responsible parties in order to stimulate action. Such costs are also incurred when MSF provides public information to render account of its actions and the operational reality MSF teams see.

MSF Access to Products for Healthcare (MSF Access) succeeded the MSF Access Campaign at the end of 2024. MSF Access is made up of a team of regional advocacy, analysis and other colleagues working on access issues. It works to guarantee equitable access to affordable, innovative, and quality healthcare products for MSF patients and, consequently, for patients and communities worldwide.

	<i>In thousands of EUR</i>	
	2025	2024
Awareness-raising	57,438	49,828
MSF Access	5,318	6,108
Total	62,757	55,936

2.2.6 OTHER HUMANITARIAN ACTIVITIES

Expenses classified under other humanitarian activities consist primarily of the cost of the goods sold and services provided to other organisations, as well as MSF's contribution to the Drugs for Neglected Disease initiative (DNDi, see Note 5.1).

2.2.7 FUNDRAISING

Fundraising expenses represent costs incurred for raising funds from all possible sources of income from private donors and public institutions.

2.2.8 MANAGEMENT AND GENERAL ADMINISTRATION

Management and general administration expenses consist primarily of expenses associated with executive management, headquarters finance and human resources management, internal communication, and the associative life of the organisation.

2.2.9 NET EXCHANGE GAIN / LOSS UNREALISED AND REALISED

Net realised exchange gains/losses represent gains/losses generated from foreign currency transactions entered into during the year by the various offices. Net unrealised gains/losses represent gains/losses resulting from the revaluation of items in the Statement of Financial Position of reporting entities.

2.3 FINANCIAL ACTIVITIES

Financial activities represent income and expenses resulting from financial and investment activities.

	<i>In thousands of EUR</i>	
	2025	2024
Financial income	27,453	25,934
Financial expenses	(804)	(1,082)
Financial surplus	26,649	24,852

Financial income in 2024 and 2025 is linked to gains on endowment funds, other investments and on interest income on short term deposits. 7.24M EUR in 2025 corresponds to unrealised gains. In 2024 the financial surplus includes an unrealised loss of 1.93M EUR.

2.4 EXTRAORDINARY ACTIVITIES

Extraordinary activities arise extremely rarely in the context of ordinary operations and are not predictable.

	<i>In thousands of EUR</i>	
	2025	2024
Extraordinary income	288	4,285
Extraordinary expenses	(3,919)	5,652
Extraordinary (deficit)/surplus	(3,631)	9,937

In 2024 and 2025, extraordinary expenses include the partial reversal of a provision for a specific tax risk that was originally recorded as an extraordinary expense. In 2025, a provision of 9.3M EUR has been made in anticipation of potential VAT liabilities. In 2024, a section received an exceptional reimbursement from a government fund (4.2M EUR).

3 NOTES TO THE COMBINED STATEMENT OF FINANCIAL POSITION

3.1 CASH AND CASH EQUIVALENTS

In thousands of EUR

	2025	2024
Cash at headquarters	710,117	591,181
Cash in countries of operations	109,285	104,311
Short-term deposits	304,697	375,163
Cash and cash equivalents	1,124,098	1,070,656

This includes cash at headquarters, cash in countries of operations, and deposits with a maturity date of less than 90 days as of 31 December. Amounts are valued at fair value, with any resulting gains or losses recognised in the Statement of Financial Activities.

3.2 INVENTORIES

In thousands of EUR

	Gross value	Provision	2025	2024
Medical and non-medical relief goods	72,020	(3,132)	68,888	71,357
Other inventories	434	-	434	682
Inventories	72,454	(3,132)	69,322	72,040

Inventories held at headquarters, in operational sections, and satellites are recorded at the weighted average of the purchase price. Discounts are deducted from purchase value. All goods and materials to be used in projects are recognised as expenses when transferred from headquarters and satellites to projects, or when purchased locally, because of the fast turnover and their non-commercial destination. Appropriate inventory provisions are recorded based on stock usage, expiry date, and any damage.

3.3 GRANTS RECEIVABLE

In thousands of EUR

	Current		Non-current		Total	
	2025	2024	2025	2024	2025	2024
Grants receivable from private donors	23,104	31,603	3,028	9,253	26,132	40,856
Grants receivable from public institutions	11,415	2,217	1,820	2,550	13,235	4,767
Grants receivable	34,519	33,820	4,847	11,803	39,367	45,623

Grants receivable correspond to funds owed to MSF by third parties according to a formal agreement. They result from the difference between cash received and expenses incurred against those grants. A provision of EUR 245,000 for grants receivable is stated at 31 December 2025 (none at 31 December 2024).

3.4 CONTRIBUTIONS AND LEGACIES RECEIVABLE

In thousands of EUR

	Gross value	Provision	2025	2024
Contributions receivables	57,353	(433)	56,920	78,391
Legacies receivable	130,585	-	130,585	114,183
Contributions and Legacies Receivable Current	187,938	(433)	187,505	192,574

Contributions receivable include donations sent by donors before year-end for which the corresponding cash has been collected by MSF in the month following year-end. They are accounted for at their nominal value net of provision.

Legacies are accounted for at nominal value net of provision.

3.5 OTHER RECEIVABLES

In thousands of EUR

	Gross value		Provision		Total	
	2025	2024	2025	2024	2025	2024
Services provided to other organisations	11,257	10,433	(25)	(25)	11,232	10,408
Assets held for sale	31,404	29,838	-	-	31,404	29,838
Deposits and guarantees	2,940	2,759	-	-	2,940	2,759
Other miscellaneous receivables	22,987	21,965	-	-	22,987	21,965
Other receivables current	68,589	64,994	(25)	(25)	68,564	64,969
Deposits and guarantees	3,197	4,070	-	-	3,197	4,070
Other miscellaneous receivables	72	19	-	-	72	19
Other receivables non-current	3,269	4,090	-	-	3,269	4,090
Total - Other receivables	71,858	69,084	(25)	(25)	71,833	69,059

Other receivables mainly relate to assets held for sale, services provided, and goods sold to other organisations. Assets held to be sold are reported at their best estimate amount when legally transferred to MSF. Most of these assets are buildings. Other miscellaneous receivables include amounts to be refunded from tax authorities, such as VAT refunds, and advances to suppliers.

3.6 FINANCIAL ASSETS

In thousands of EUR

	Gross value	Provision	2025	2024
	Short-term investments	128,441	-	128,441
Financial assets current	128,441	-	128,441	133,671
Long-term investments	75,365	-	75,365	71,727
Long-term loans	2,546	-	2,546	2,371
Other financial assets	133	-	133	144
Financial assets non-current	78,044	-	78,044	74,242
Total - Financial assets	206,485	-	206,485	207,913

Financial assets are valued at fair value. Investments include endowment funds, other donor-directed investments and short-term deposits. The forward contracts MSF uses to hedge the current risks linked to net income flows are not recognised in the statement of financial position until the future cash flow is realised. Upon the occurrence of the future transaction or the disposal of the derivative instrument, the current value of the derivative financial instrument is recognised in the statement of financial position and recorded in the statement of financial activities at the same time as the cash flow hedged. Derivative financial instruments that are open as at the statement of financial position date are disclosed in Note 5.1.

3.7 PREPAID EXPENSES AND ACCRUED INCOME

Prepaid expenses include payments made towards insurance premiums, rentals, postage and software licences for future years. Prepaid expenses are valued at nominal value.

3.8 OTHER ASSETS

Other assets mostly represent advances to vendors and other operating advances. Other assets are valued at nominal value, net of any potential impairment.

3.9 PROPERTY, PLANT AND EQUIPMENT, AND INTANGIBLE ASSETS

Net carrying value 31.12.2024	217,909	374	21,006	14,467	1,336	255,092	35,126	290,218

Property, plant and equipment (PPE) are mainly located at the headquarter offices of MSF entities. Intangible assets are mainly composed of software and licences. Property, plant and equipment, and intangible assets held by MSF, are capitalised when they are held to be used for the activity, or for administrative purposes, and expected to be used over more than one year. Property, plant and equipment is recorded at their acquisition cost, including incidental expenses. They are depreciated using the straight-line method over their estimated useful lives, using the component approach. Land is not depreciated. Intangible assets, such as software, are recorded at cost, net of accumulated amortisation and impairment losses. They are amortised on a straight-line basis over their estimated useful lives. The depreciation period is based on the type of asset and the policy of each entity:

Buildings	10 to 50 years
Furniture & fixtures	
Furniture	3 to 10 years
Fixtures	3 to 10 years
IT and other equipment	
Computer equipment	3 to 10 years
Other tangible assets	3 to 10 years
Intangible assets	
Software	3 to 15 years

The acquisition cost of equipment used in projects for programme purposes, such as vehicles and medical and communication equipment, is expensed upon shipment to projects, or upon purchase if purchased locally, due to the instability of the contexts in which MSF operates and the difficulty in determining, in a reliable way, their useful life and residual value. When an MSF operational directorate leaves a country, the remaining equipment is generally donated to the Ministry of Health of the country or another non-governmental organisation still present in the country, and thus does not generate any future economic benefit for MSF.

Buildings (including those under construction) and land owned by MSF at 31 December 2025 are valued at 206 million EUR (218 million EUR in 2024). Such assets aim to optimise the running costs of the organisation by lowering rental costs and diversifying the reserves.

Assets acquired under long-term finance leases are capitalised and recorded in the Statement of Financial Position. They are depreciated over the estimated useful lives of the assets. The associated obligations are included in financial debts (Note 3.12).

Among the tangible assets at 31 December 2025, the gross value of capitalised leased assets is at 75 thousand EUR (85 thousand EUR in 2024), and capitalised obligations 33 thousand EUR (54 thousand EUR in 2024). The total reimbursements for the current year amount to 17 thousand EUR (19 thousand EUR in 2024).

3.10 ACCOUNTS PAYABLE AND ACCRUED EXPENSES

In thousands of EUR

	Current		Non-current		Total	
	2025	2024	2025	2024	2025	2024
Accounts payable	82,768	76,975	0	-	82,768	76,975
Accrued expenses	48,333	40,646	0	-	48,333	40,646
Accrued personnel expenses	98,064	101,853	124	140	98,188	101,993
Accrued taxes	12,201	7,611	0	-	12,201	7,611
Public institutional grants payable	339	11	0	-	339	11
Private grants payable	2,056	2,534	30	-	2,086	2,534
Other payables	30,353	34,300	212	418	30,565	34,718
Accounts payable and accrued expenses	274,114	263,931	367	558	274,480	264,488

Accounts payable to suppliers are recorded on an invoice basis when invoices are received by the time of preparation of the financial statements. Accrued expenses are valued at the best estimate if no invoice has been received. Other payables include amounts owed to donors of the charitable gift annuity programmes.

3.11 DEFERRED INCOME

In thousands of EUR

	Current		Non-current		Total	
	2025	2024	2025	2024	2025	2024
Deferred income on private grants	52,345	72,210	3,028	9,253	55,373	81,463
Deferred income on public institutional grants	9,089	1,540	1,820	2,550	10,909	4,090
Other deferred income	3	395	-	-	3	395
Investment subsidies	-	-	-	51	-	51
Deferred income	61,438	74,145	4,847	11,854	66,285	85,999

Deferred income represents the portion of restricted funding received from public institutions and private grants that will be used in future years. Deferred income is shown under short-term liabilities for the portion that will be spent within one year, and long-term liabilities for those exceeding 12 months at year end. Investment subsidies are related to public funds provided to expand the MSF Logistique premises.

3.12 FINANCIAL DEBTS

In thousands of EUR

	2025	2024
Current borrowings and loans	2,581	2,787
Current capital lease obligation	33	55
Financial debts - current	2,614	2,843
Non-current borrowings and loans	20,670	22,860
Non-current capital lease obligation	-	-
Financial debts - non-current	20,670	22,860

Borrowings and other financial liabilities are recognised at fair value less transaction costs initially, and are subsequently measured at amortised cost using the effective interest method. Two entities contracted long-term debts to purchase the office buildings they use for their own operations.

3.13 PROVISIONS

Provisions are recognised when the following conditions are met: MSF has an obligation that has arisen as a result of a past event, an outflow of resources will be needed to settle the obligation, the timing and/or the amount of the outflow are uncertain, and a reliable estimate of the amount required to settle the obligation can be made.

Provisions classified as Legal provisions relate to ongoing legal actions. MSF is not subject to corporate income tax. Tax provisions relate to other types of tax, e.g. payroll taxes.

3.14 ORGANISATIONAL CAPITAL

Organisational capital refers to:

- Capital for foundation. This corresponds to the capital certain MSF entities, such as foundations, need to have to fulfill legal requirements.
- Minimum compulsory level of retained earnings.
- Translation reserves as defined in Note 1.5.
- Unrestricted funds, which are unspent donor funds that MSF may use at its discretion to further its social mission.

Other movements in funds include:

- The reclassification of assets that were previously classified as restricted and for which the donor restriction has been met.

A recent analysis of the capital account of an MSF foundation has led to the reclassification of 10.608M EUR from “capital for foundations” to “permanently restricted funds”.

3.15 PENSION PLANS

In thousands of EUR

Economical benefit / economical obligation and pension benefit expenses	Contributions concerning the period	Pension benefit expenses		Capital ratio	
	2025	2025	2024	2025	2024
	7,836	6,467	6,824	110%	111%

The nature of pension plans for MSF staff depends on the regulations in effect in the country where the MSF entity that employs them is based and all relevant internal policies. In Switzerland, pension obligations are covered by a plan with an independent organisation. Contributions to a plan are recognised as an expense in the Statement of Financial Activities in the year in which they are incurred. MSF employees in Switzerland benefit from a scheme covering retirement, invalidity pension and death, according to the provisions of the Swiss Federal Law for occupational retirement (LOB). The occupational benefits are provided by a collective foundation, Profond, according to a benefit plan: investment yield has no impact on premiums; the employer does not guarantee the benefit amount. The Plan is funded by the contributions of MSF International and the employees. The plan covers the usual occupational benefits: retirement and invalidity pension, and death benefits. Risks are insured by the collective Foundation.

The surplus is not recognised in the Statement of Financial Position, in compliance with Swiss GAAP FER/RPC. The pension plans of MSF entities that are not based in Switzerland are not considered for the purposes of this note as per Swiss GAAP FER/RPC.

5 OTHER FINANCIAL INFORMATION

5.1 OFF-BALANCE SHEET COMMITMENTS

In thousands of EUR

	2025	2024
Guarantees provided by MSF entities	9,651	9,340
Rental contracts for office buildings & field facilities	38,439	42,460
Other off-balance sheet commitments	1,980	1,926
Contribution to DNDi	2,000	2,000
Total off-balance sheet commitments	52,070	55,726

In thousands of EUR

	First Year	Year 2 to 5	Year 6 to 10	Total
Commitments related to rental contract distributed by maturity	12,546	19,418	6,474	38,439

MSF participated in the establishment of the Drugs for Neglected Diseases initiative (DNDi) with six other organisations: five public sector institutions – the Oswaldo Cruz Foundation from Brazil, the Indian Council for Medical Research, the Kenya Medical Research Institute, the Ministry of Health of Malaysia and France’s Pasteur Institute – and one international research organisation, the Special Programme for Research and Training in Tropical Diseases, which is a permanent observer to the initiative.

DNDi became a legal entity in July 2003 and MSF was one of the founding partners. MSF’s objective in its involvement in the creation of DNDi was to help create a research and development initiative for neglected diseases, which in time would be self-financing and in a position to work independently of MSF. In 2018, the IGA decided to support DNDi to the level of 4 million EUR per year until 2023. The commitment has been reduced for 2024-2025 to 2 million EUR per year.

Derivatives on future cash flows

MSF International is responsible for implementing a key component of MSF’s strategy to mitigate the impact of currency fluctuations on the financial situation of the MSF movement. It has been using foreign exchange forward contracts since early 2023. The strategy aims to cover up to 80 per cent of expected net cash inflows to Operational Directorates over 12 months, to ensure that resources allocated to operations in particular are protected from adverse exchange rate movements, while maintaining a balance between risk mitigation and flexibility to respond to unforeseen circumstances. The outstanding contracts as of 31 December 2025 and 2024 were concluded in 10 currencies, which are the main currencies in which MSF receives income other than the euro.

In thousands of EUR

	2025	2024
Value of open contracts at 31 December	446,961	403,118
Difference with value of non-EUR net commitments at 31 December forward value (replacement value)	4,950	(4,490)

MSF USA has agreed to provide guarantees to the banks used by MSF for the hedging programme to a maximum of USD 70 million. This amount has been reduced to USD 20 million in early 2025. This is not included in the off-balance sheet commitments above.

5.2 CONTINGENT ASSETS

In thousands of EUR

	2025	2024
Land	26	53
Buildings	4,342	3,472
Securities	278	697
Other financial assets	145,434	155,327
Estimated legacies and bequests to be transferred to MSF	32,336	26,022
Total contingent assets	182,417	185,570

Contingent assets are items that will become assets when a future condition is realised. In MSF, they mainly consist of legacies and bequests expected at year end but that are not yet legally transferred.

6 HUMAN RESOURCES

6.1 FULL-TIME EQUIVALENTS OUTSIDE OF HEADQUARTERS

	<i>In full-time equivalents</i>	
	2025	2024
International mobile programme	4,127	4,028
Locally hired programme	39,822	42,861
Programmes	43,949	46,889
International programme support	60	72
Locally hired programme support	121	38
Programme support	181	110
Total positions outside of headquarters	44,130	46,999

6.2 FULL-TIME EQUIVALENTS IN HEADQUARTERS

	<i>In full-time equivalents</i>	
	2025	2024
Social mission	2,877	2,647
Fundraising	1,401	1,333

Facilities and other transversal activities	376	341
Employees	5,641	5,329
Social mission	38	30
Fundraising	16	12
Management and general administration	76	65
Volunteers	129	107

Volunteers generously donate their time to MSF.

6.3 HEADQUARTERS REMUNERATION POLICIES

The gross salaries presented below are based on the policies of the different MSF entities. Disclosed salaries exclude remuneration of interns, and are equal to one full-time equivalent for the corresponding position. They are presented in local currency and depend on the cost of living in the countries where the entities are established.

6.3.1 HIGHEST AND LOWEST SALARY BY ENTITY

	Currency	Highest salary	Lowest salary	Wage Ratio
MSF Argentina	Argentine Peso	85,478,341	18,584,865	4.6
MSF Australia	Australian Dollar	248,006	68,248	3.6
MSF Austria	Euro	105,785	32,268	3.3

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organisation that delivers emergency aid to people affected by armed conflict, epidemics, exclusion from healthcare and natural disasters. MSF offers assistance to people based on need and irrespective of race, religion, gender or political affiliation.

MSF International
