After consultation between Marie-Christine and me, following is decided in regard to the Kosovo situation:

- An explo team will move from Tirana to North of country to see what could/should be done with the influx of Kosovar people (3,700 reported) Responsibility: MSF Belgium.

- A second explo will (try to) move from Sarajevo to Montenegro. Objective: See above: same as above (reported 6,000 people arrived) Responsibility MSF Holland.

A close coordination will be maintained. Should the situation even worsen in coming days, the ET could come in to effect. Decision: Thursday/Friday by Marie-Christine and me.

We will keep everybody informed on the developments via the ET structures.

Hope to have informed you all appropriately.

Regards, Wouter Kok.
